### New Car Sales Ban Draws Rap

Detroit—(UPI)—A proposal by Los Angeles City Councilman Everett G. Burkhalter to ban the sale of new cars there unless the automobile industry came up with an anti-smog device provoked some caustic comment today from authorities in the automobile capital.

Mayor Louis C. Miriani of Detroit led off by saying "Los Angeles is going to become a foreign country all by itself if it keeps this up."

"How silly can they get?" he asked. "Banning new car sales would simply mean that there would be more old cars on Los Angeles streets. They would create more of an exhaust problem than the new cars."
