Stocks Suffer 1st Decline in Weeks

New York (UPI)—Stocks suffered their first decline since Dec. 23 today.

A few top-ranking issues registered wide losses running to more than 5 points at the close to pull down the industrial average. One stand-out, American Telephone, rose 5 points to a new high since 1930 at 236 and held more than half the rise.

Rails and utilities registered moderate losses. A long list of special issues showed gains running to more than 3 points.

The prolonged, seven-session rise that preceded today's decline added nearly 25 points to the industrial average which closed Tuesday at a record high and carried values to all listed issues up by 111 billion dollars.

Spiritual Need Emphasized Here

Today's imperative need is spiritual enlightenment, Miss Florence Middaugh of Los Angeles said Tuesday evening in a public lecture in the First Church of Christ, Scientist.

Speaking on "Christian Science: Its Promise and Fulfillment" Miss Middaugh said the demand of the times is ceaseless prayer and a constant awareness of God's presence. There is no problem facing mankind today that cannot be solved, the speaker said.

Right solutions to problems of every kind are found, Miss Middaugh said, by gaining a spiritual understanding of God, not by reliance upon materialism.

The lecturer emphasized the motive of true education is to make one know the truth by living it. Turning to world affairs she pointed out how the individual can help to solve the grave problems confronting mankind. She told her audience to face workaday problems with affirmative, joyous productive thinking.

Where's the handiest place to look for data on almost any subject?

ANSWER: THE DAILY NEWSPAPER. It is a current and living historian. It records today what will be tomorrow's history. The files of the daily newspaper are the most accurate and the richest source for the records of the events of any day, any year, as far back as newspaper files are kept. The contents of the newspaper are no fleeting thing that appear on the air and then are lost forever. And it is this permanence that makes the daily newspaper the favorite of readers and advertisers.
