Terms of Alaska's Solons Determined

Washington — (UP) — Sen Ernest Gruening of Alaska will serve four years in the Senate and his colleague, E. L. (Bob) Bartlett, will serve two years, a drawing determined Wednesday.

The two Democrats from the nation's newest state settled the length of their terms in a rare drawing before the full Senate shortly after they were sworn in.

Gruening drew first and pulled a slip from a small, mandolin-shaped box which bore the number 3, which means he will be a Class III senator with a four-year term. Bartlett picked out a slip which bore the number 2, which means he will be a Class II senator with a two-year term.

A third slip in the box bore number 1, which means "Class I" senator. This would have meant a six-year term had it been drawn by either of the new senators. The drawing means that Alaska will have a senatorial election in 1960 and again in 1962.

TARGET PRACTICE

San Francisco — (UP) — Mrs. Maria Larsen, 35, saw a prowler in the backyard of her home. She got her husband's .22 pistol, went to a rear window and pushed aside a blind. She pulled the trigger — and suffered a flesh wound in her arm.

Russia and/or its satellites have taken part in eight of the 15 small wars which have occurred since the end of World War II.
