Migrant Worker Topic at Conference

"Oregon is doing the most extensive studies in the country on the conditions of the migrant workers," according to Mrs. Cecelia P. Galey, who quoted the executive secretary of the President's committee on migrant workers at the Rural Health conference in Corvallis recently.

Mrs. Galey is commissioner of the Oregon Unemployment Compensation commission, and spoke on the topic of "The Migrant Workers, Their Status in Oregon."

Mrs. Galey explained the work of the interagency group which has studied the problem along with the interim committee, and said many gaps were found in regulations concerning health and safety of migrants.

Six bills are to be introduced in this session of the legislature regarding migrant workers.

Many health problems, Mrs. Galey said, need to be handled on inter-state or federal level because of workers coming and going in so many states. However, some steps should be taken on the community level while legislation is pending, she said.

Mrs. Lawrence Tweedy, executive secretary of the Jackson County Tuberculosis and Health association attended the conference Jan. 16. The first day was devoted to discussions of the "Older Age Groups."

Humphrey To Be On Porter TV Show

Washington, D.C. - Senator Hubert H. Humphrey (D-Minn.), will make a special guest appearance on Rep. Charles O. Porter's television report to constituents of the Fourth Congressional district this month. The televised program will be sent to Eugene, Roseburg and Medford TV stations.

The two members of the 86th Congress discuss issues facing the House and Senate, including the pressing need for new housing legislation.

Porter and his guest touch on a variety of topics. Humphrey outlines his "Marshall" plan for medicine. Pointing to a need for developing the United States in its "true image of peacemaker," Humphrey cited the wars mankind waged against cancer, heart disease and other killers.

In earlier conversation, Senator Humphrey stressed need for "peace with justice" and said it incorporated strong foreign and domestic policy. He said he plans to reintroduce his Youth Conservation Corps bill which provides conservation and improvement of land throughout the nation.

Humphrey told Porter he felt representatives were becoming more interested in foreign affairs. Commenting on Porter's work in this field, he said "I know of no man with greater insight in Latin American affairs. You have taken the lead in the House and in the Senate we're trying to follow your lead." Senator Humphrey is a member of the Senate Foreign Relations committee. His father was born in Albany, Ore.

The film will be shown over KBES-TV at 7 p.m. Saturday, Jan. 24.

Stock Market Rise Cut by Opposition

New York - (UPI) - The stock market ran into opposition today when the industrial average tried to cross the 600 level.

The list was hit by profit taking. A long list of issues advanced, however, to lend some semblance of strength to the general market.

Railroad issues barely held their own and the utilities eased.

Rome Cable, which decided to affiliate with Aluminum Co. of America, ran up more than seven points to a new high.

For a time strength was noted in individual chemicals, tobacco, drugs, airlines and special issues.

Superior Oil of California stood out in the high priced group. It ran up 80 points to a new high at 2,100.
