Indian Threatens To Sell Oil Rich Land To Russia

Minneapolis, Minn. - (UPI) - A Sioux Indian said Wednesday night he will offer to sell nine million acres of oil rich land in North Dakota to Soviet Russia if the U. S. government refuses to help his people.

Al La Fontaine, head of the Indian Trades Council here, earlier telephoned the Soviet Embassy in Washington to plead for a loan. But he changed his plans and decided to sell because "I'm not going to the Russians and beg."

La Fontaine contends that the land, comprising about one-third of North Dakota, legally belongs to the Indians because it was never turned over to the U. S. government by treaty.

Will Ask for Bids

He promised America first chance at the acreage in the state's north-central section. If the government turns him down, La Fontaine warned he will ask the Russians for bids on North Dakota.

La Fontaine plans to lead a delegation of Indians to Washington Saturday and hopes to appear personally before the House and Senate to demand government aid in "putting industries on the reservations."

"When I get to Washington I'm going to file a claim under a special claims commission for nine million acres in North Dakota," he said. "These fellows think it's a joke. But I'm not fooling."

Congressman Lauds Dictator Trujillo

Ciudad Trujillo, D. R. - (UPI) - Rep. Dona Jackson (R-Calif.), has likened Dominican Generalissimo Rafael I. Trujillo to "the strong men of our U. S. history."

Jackson and Rep. Gardner Withrow (R-Wis.), who congratulated the Dominicans on their "peace and prosperity," were guests at a special joint session of the Dominican Congress Wednesday.

The California representative noted that Trujillo is known abroad as the Dominican "strong man." "The history of all nations of the world is a reflection of men who were strong," he said. "We in the United States respect the strong men of our own history."

Benson Suggests Migrant Worker Development Plan

Washington - (UPI) - Secretary of Agriculture Ezra Taft Benson suggested today that a rural development program or low-income migrant farm workers might improve their efficiency and living conditions.

Benson raised the possibility in a message to the opening session of a two-day conference sponsored by the National Advisory Committee on Farm Labor.

"In many cases," Benson said, "these people don't have skills and training to secure non-agricultural employment. If agriculture employment were not available, some of them might be dependent on various types of welfare programs."

Along this line, 10 Democratic congressmen urged Congress in a joint statement to do something to raise the wage and living standards of two million poor farm workers and their families.

The lawmakers were Reps. Frank Thompson Jr. (N.J.), Lee Metcalf (Mont.), James Roosevelt (Calif.), John Blatnik (Minn.), Thomas L. Ashley (Ohio), George M. Bailey (W. Va.), and Charles O. Porter, (Ore.).

The co-chairman of the farm labor conference, Frank Graham, former Democratic senator from North Carolina, said the sessions were designed to focus public attention on the plight of "forgotten" farm hands.

Speakers will try to discover why hired farm workers received an average annual wage of \$892 in 1957, below the level the Labor Department says is required for subsistence, Graham said.

The need for minimum federal standards on wages, hours, housing, health and transportation will be explored, he added.

FORGETS KEY
Knoxville, Tenn. - (UPI) - Police who raced to the city hall to answer a burglar alarm found city law director John Duncan climbing through a window. He had forgotten his key.

OVERSEES CONSTRUCTION
Warsaw - (UPI) - Brazilian Adm. Fontes Ferreira has arrived in Poland to oversee construction of merchant ships for his country.

NEW SIOUX UPRISING - Al LaFontaine, a Sioux Indian and director of the Indian Trades Council, has requested a five-million dollar loan from Russia to finance industry on the Turtle Mountain Reservation in North Dakota. LaFontaine, here shown at his machinist's job in Minneapolis, said that he asked Russia for the loan because he is convinced that the American government has no intention of helping Indians.

Couple Arrested For Attempting To Sell Twin Boys

Houston, Tex. - (UPI) - The 24-year-old couple who sold the mother's 8-year-old boy twins to a policewoman and juvenile officer for \$300 in marked bills, was held in Harris County jail today.

Mr. and Mrs. Clark Stillion gave a bill of sale for the twins to policewoman Mrs. Lanny Dixon and juvenile officer Robert E. Brumley Wednesday. The officers promptly arrested the couple.

The twins were the sons of Mrs. Stillion, a blonde who said she was from England.

Have Two Daughters
The Stillions also have two daughters, Nancy, 4, and Tina, 3.

Mrs. Stillion said she and the father of the twins were divorced in England in 1953. She then married Stillion while he was stationed in England with the Air Force, and came to this country with him.

The policewoman said she received a report Wednesday that a couple was "trying to give away some children."

Posing as a childless couple, Mrs. Dixon and Brumley traced the Stillions through a description and the report that the mother was a "foreigner."

Simply Seeking Home
The policewoman said the couple told them they "didn't want to go through all the trouble of going to court for the children and asked us how much money we needed to clear out of here and return to my husband's home in Franklin, Mich."

Mrs. Dixon said "we told them \$500."
Mrs. Stillion complained, "You would think I had committed the worst crime in the world. I was simply trying to find someone who would adopt the children because we couldn't take care of them."

PRETTY GOOD
Oslo - (UPI) - Cabinet maker Casper Caspersen, accused of stealing paintings by famed Norwegian artist Edward Munch, was found innocent after he painted a near-perfect facsimile of one of Munch's works in court.
