Table of television programs for Sunday and Monday, listing channels like KBOV-130 KC, KOTI-TV (Channel 2), and KWB-TV (Channel 5), along with program titles and times.

The Medical Roundup

by Walter Alvarez
Phony Physicians
Recently I read an editorial in the Illinois Medical Journal on the recent discovery that a Chicago 'doctor' was really a patient from a mental hospital—without any knowledge of medicine.

passed with more teeth in it and more severe penalties, but the legislators always have killed the proposed bills. And they probably will keep doing this because more than half the people in the United States love quacks and do not want them to be annoyed. Should Look Up Status
Repeated exposes in the last few years have shown that some hospitals should look up the status of the 'doctors' they take on their staff.

People ask me why didn't the medical association expose the supposed doctor and have him put out of business. One reason is that in Illinois and most other states the detection of fake doctors and the putting of them out of business is the function of the Department of Registration and Education. No medical society can do it.

It should be noted, also, that in Illinois the penalty for practicing without a license or any knowledge of medicine is so small that no quack need worry about it. He can pay his fine and go back to work.

Salem—UPI—Gov. Mark Hatfield said he does not have authority to appoint a successor to County Judge Charles Mack of Klamath county. He said it is a local problem.

Rome—UPI—Antonio Segni, 68, a gentleman farmer and middle of the road politician, has agreed to try to form a new government for Italy.

up in an airplane with a man at the controls who has never been up before! Isn't it curious that more than half of our people are strongly opposed to the proper licensing of doctors. They would hate to go up in an elevator with an operator who wasn't licensed, but they don't mind putting their lives in the hands of a man who bought his diploma for \$100.

Research Reports Reveal CRAB GRASS PROBLEM SOLVED
One PAX Application Gives Years of Control
Research reports just released reveal a major breakthrough in control of crab grass. Test plots, where a single PAX application was made, show no crab grass three years later. These tests are now confirmed by similar findings by leading universities throughout the country.
