

The Chief who Shot Too Many Bucks...by CLAUDE

This Indian chief struck it rich. Oil. So he bought himself a big, showy car. Next, he fell in love with a beautiful princess... and married her.

After a while, his bride said: "Ugh! Chief shoot too many bucks on big car for gas and oil. Pretty soon, money will run out. Gotta economize!"

"Lo! The poor Indian," said the chief, and traded the big gas-hungry buggy on a little European car. Then his wife said: "Expect family. Need more room."

"Women!" said the chief, and went hunting for a car with lots of room and quality but a small appetite for gas. Found same... at Rambler dealer's.

"Wow!" said the chief. "Plenty room for 6 big chiefs with eagle feathers on... or twelve papooses! Travel plenty suns on tank of gas, too. Save heap wampum."

"I'll take two. Better than one big car," said chief. "Now have peace in family!" So will you when you trade a big, gas-thirsty car on a newly styled 1959 Rambler.
