## Pampered PRODUCE

Looks Better... IS BETTER!

Improve on Nature? We do it every day through the loving care we give to our fruits and vegetables. We baby our bananas... coddle our cauliflower... and pamper all our produce shamelessly. We trim what should be trimmed... moisten what should be moistened... ice what should be iced—all to give you the crispiest, tastiest, thriftiest produce buys in town.

WHAT DOCTORS SAY ABOUT

- TB X-Rays
- Eyeglass Cleaners
- "Doctor" or "Mister"

Q. If x-rays are harmful, why are people who are perfectly well urged to have chest x-ray examinations for tuberculosis?  
A. Because benefits of properly conducted chest x-ray programs far outweigh possible harm. This was the conclusion of a special investigative committee appointed by the Ontario (Canada) Tuberculosis Association. The National Tuberculosis Association and American and State (Grudeau Societies support this view.

Q. What is the best way to clean glasses?  
A. Soap and water is excellent, provided a mild hand soap is used. Stronger soaps might affect the trim on some glasses. Several good cleaning fluids for glasses are available through optical stores. These contain a mild alcohol solution which takes off most spots. Silicone-treated papers are satisfactory for use except on lenses that have non-reflective coatings.

Q. I have heard that doctors are called "mister" in England. Is this true?  
A. Yes. In England a good many surgeons lack the title of Doctor and even physicians may not

have it. When an Englishman is ill he consults a doctor, as we do. But a surgeon is usually plain Mister, and prefers to be so called, although he may have M.D. after his name. An English dentist or veterinarian or chemist or professor is seldom called "Doctor" even though they may have the degree or status of doctor conferred by a university. In the United States the word "physician" is now commonly applied to our Medical Doctors.

Answers do not necessarily reflect the opinion of all doctors. The diagnosis and treatment of disease is the function of the patient's personal physician. Questions directed to Science Editors, P.O. Box 396, Madison Sq. Sta., N. Y. 10, N. Y. will be incorporated in these columns when possible.
