# Investors Turn Attention To Oil

New York—Investors turned their attention from outer space to "back gold" today, but the result was the same—a rising market.

Industrial stocks climbed to new all-time high ground, sparked by individual gains of two points or more in leading oil issues. The missile and electronic issues continued to orbit.

The oils were helped by a very optimistic report concerning Gulf Oil. Gulf was up more than four at its high before running into a little profit taking.
