Council Approves Zone Change for Jackson Property

The Medford city council last night approved by a 4-3 vote the change of zone from residential to limited commercial for the property at the northeast corner of East Jackson and Genesee sts.

Mayor John W. Snider reminded the councilmen later that he has 10 days in which to consider exercising his veto power. He explained afterward that since the vote was this close, he wished to study the matter further. Should he fail to approve the change, a two-thirds vote by the council would be required to overrule him.

Favoring the change were Councilmen Robert Van Sickle, Ward III, Al Bradford, Ward II, and Jimmy Dunlevy and Stan Stark, both Ward IV. Opposing were Councilmen Ed Hall and Fred Robinson, both Ward I, and Don Hansen, Ward II. Councilman Robert Bacus, Ward III, did not attend the meeting.

The council's approval was an endorsement of the recommendation of the city planning commission. The councilmen and planners met last week to discuss the matter in joint session.

The change was requested to permit construction of a branch office for the Rogue Valley State bank.

The council also approved, after a public hearing, the paving of East Jackson st. from Bear creek to Genesee st. The street is to be widened to 52 feet. Under a city policy, abutting property owners would be assessed for 44 feet of this with the city itself financing the difference.

Following another public hearing, the council approved a zone change from residential to light industrial for property bounded by North Riverside ave., Court st. and Ohio st. The change brings the zoning into accord with the existing use of the area.

The council called for a public hearing March 19 in the Jackson county courthouse auditorium for discussion of the proposed Berrydale sanitary sewer system.

A method of assessment similar to that for the Kenwood-Grandview and Laurelhurst sewer system was approved for Berrydale. This would involve a lateral assessment, estimated at \$3 per front foot, and an acreage assessment, estimated at \$198.50 per acre, or a minimum of \$79.50 per lot. Individual connection fees are estimated at \$75.

Property owners in the area are to be mailed individual notices announcing the hearing and outlining the assessment plan.

City Manager Robert A. Duff was authorized to request a hearing before the public utilities commission on the proposed extension of Melrose ave. across the Southern Pacific railroad. The extension would enter South Riverside ave. opposite Barnett rd. and provide another link in the city's arterial street system.

The council adopted plans and specifications for a proposed sanitary sewer along South Riverside ave. from 12th st. to Stewart ave.

Revised plans and specifications calling for a sewer line across the Rogue Valley Country club property instead of a pumping station on Hillcrest rd. were approved by the council for the proposed Eastover terrace sanitary sewer. Duff was authorized to readvertise for bids on the project to be received by March 13.

Oppose Low Bid
Duff reported that at least 7 of the 11 property owners on Eastover opposed accepting the original low bid, including installation of the pumping station which was well above the engineer's estimate.

A zoning variance for a carport erected at 401 Park st. was approved. The variance was also discussed at last week's joint meeting.

The council approved purchase by the city of eight acres of pasture land in the airport clear zone for \$4,350, a cost to be partially reimbursed by the federal aviation agency. Duff pointed out that

Theft—Eugene Ferrell, route 1, box 246, Old Stage rd., Central Point, reported to sheriff's deputies the theft of a small electric cultivator and a gas can from his property recently.

Boy Questioned—Medford police reported that an 11-year-old boy admitted Wednesday he had taken \$13 Feb. 27 at the Holly theater from a wallet belonging to Eva Marie Koch, box 425. Police said restitution was made for the theft and juvenile authorities planned no action in the case.
