

COVERING UP—Betty Williams, 57, covers up in police station following her arrest on charges of operating a ring of "high class" prostitutes in New York. Police said that six of the women were married, and managed to keep their careers secret from their husbands. Miss Williams described herself as a former Ziegfield Folies girl.

Pointers Are Given to Speed Tax Refund Checks

Salem—Persons entitled to a refund on state income tax withheld from wages last year can speed up their refund checks from the tax commission by avoiding errors and omissions in their returns.

Dean Ellis, commission chairman, pointed out that errors in preparing returns is the most common cause of delay. He explained that refund returns are normally processed in the same order they are received, unless they contain mistakes which remove the return from the regular channels of processing.

Ellis advised that taxpayers should:

1. Attach the right copy of information return forms 99W and W-2. These are the slips given to the taxpayer by the employer containing amount of wages paid and tax withheld during the year.
2. If it is a joint return, make certain both husband and wife sign it.
3. Answer all the items in the questionnaire on the face of the return.
4. Give the relationship and age of all dependents, and if they are over 18 explain why they are dependent.
5. If using the long form, clearly state the nature and amounts of personal deductions.
6. Give full name and cur-

rent mailing address. Otherwise, the refund check may be returned to the commission by the post office.

7. Complete the return fully and show the amount of refund claimed. If this is not done, misclassification and delay may result.

Early filing, attachment of the proper documents, and care in preparation of the return will insure prompt refund, Ellis emphasizes.

Court Records
