

1 Youth, the age when all the world is your oyster.

2 Junior Maturity, when you don't know it all.

3 Your Prime, when knowledge and experience pay.

4 Senior Maturity, the time to enjoy the rewards of life.

5 Afterglow, with all the pride of a life well spent.

diet knowledge makes possible definite staving-off of hardening of the arteries, one of the worst enemies of senior citizens today.

This 75-to-100 era should be a wonderful time to live. Alertness and responsiveness will help.

5. **Afterglow.** After 100 years. No limit set. This should be the time to strut a little—modestly, of course. The Chinese consider the older you are, the more meritorious. The gods look down on you with favor and lengthen your span accordingly.

A recent survey shows that cultivated intelligence can function unthwarted after, as well as before, the century mark. As for me, I want to live to 112. One of my great ambitions is to see the year 2000—luckily, I have only 42 years to go!

So I suggest we take a new and more realistic look at our earthly pilgrimage. No more "middle age" and "old age," but a continued upward march toward full maturity—which we may reach in 100 years, and then gaily ride a few more years on its momentum!

SAVE 25¢ ON YOUR NEXT HAIRCUT!

HERE'S HOW!

Clip this coupon from your next carton of 'Vaseline' Hair Tonic. Hand it to your barber. He'll give you 25¢ off the price of your haircut!

HERE'S WHY!

We want you to see for yourself that

**'VASELINE' HAIR TONIC
REALLY FIGHTS
DRY SCALP!**

All other leading hair tonics are either cream or alcohol types. As body temperature, they evaporate, and can leave your scalp dry and unprotected, your hair looking thin and dull. But 'Vaseline' Hair Tonic will not evaporate! It super-moisturizes scalp and hair—to really fight dry scalp, to keep hair looking healthy and handsome.

'Vaseline' is a registered trademark of Chesebrough-Pond's Inc.
