Profit Taking Mars Industrial Record

New York — (UPI) — Profit taking in coppers, oils, leading steels, and leading chemicals today marred what might have been a new high record for industrial shares.

Big demand centered again on the electronics. Selected autos got a good lift and so did some of the aircrafts and airlines. A long list of special issues moved up sharply.

The star performers were Chrysler and Ford in the autos, North American Aviation and Martin Co. in the aircrafts, American Airlines and TWA in the airlines, Foster Wheeler in the oil equipments, and General Controls in the electronics. Philadelphia & Reading was the strong feature of the specials.
