The Family Council

Editor's note: The Family Council consists of a judge, a psychiatrist, three clergymen, a newspaper editor, a women's editor and two writers. Each article is a summary of an actual report. The Family Council does not give advice; it merely reports on problems that have been dealt with by responsible agencies and counselors.

Mona R. - We are jinxed here... I want to move away. Jack R. - It could have happened anywhere else.

Mona R. - Two years ago my husband got a better job with his company in a different community. We had to move far away from our family and friends and take the children out of a school they loved.

I didn't want to move, but the raise in salary and position for my husband was a big temptation. Now I feel that we should not have been so greedy because everything has worked out for the worst here.

We have really had the most terrible run of luck—accidents, financial losses and an awful lot of trouble with our new home. Just about everything has gone wrong with it and I can't seem to get it into anything like livable shape.

I want Jack to request another transfer—anywhere to get away from here. I think he should do this for me, but he doesn't want to.

Jack R. - It is true that the last two years have been like a nightmare here. Everyday it's something else. One thing on top of another. Nothing seems to work out right and smoothly.

Just the same I was brought up to believe you make your own luck and I can't believe that someone or something is jinxing things for us. Maybe a lot of these same things would have happened anywhere else.

When I consider the financial loss we've had, for instance, I point out to Mona that the money was invested while we lived in the old community. I made the mistake then. We have only suffered the results now.

I realize it has been very rough on Mona, being so far from her family and friends and all of that, but I think that in time things will straighten out and we'll be happy here.

The Council: When things seem jinxed they often are—by the very people who claim to be the victims.

Nearly all of us hurt ourselves if we do things unwillingly, halfheartedly or with guilty feelings. Ancient legends and myths lay much stress on "purity of heart" for the accomplishment of difficult feats. The hero who finds the buried treasure or Holy Grail is often a fool in the eyes of the world, but his deep, dedicated desire to accomplish his mission, his freedom from ulterior motives put him way ahead of the merely greedy, the confused and the half-hearted.

This is a dramatic way of stating the simple fact that when we do things out of love and the desire to do well, obstacles seem unimportant and we are less vulnerable to accidents and errors. We don't turn our heads away at the wrong moment, or place the ladder in a peculiar position. Without seeming to think about it too much, all our movements and our ideas are directed toward successful completion of whatever we undertake.

Mona's problem and her jinx are in her mind. She has not decided that she wants to live in the new community even for her husband's sake. She wants him rather to move away for her sake. It has
