

Cook Book Published As Fund-Raising Project

A group of Medford women saw one phase of a long-term project realized recently when the first copies of a new cook book "Rogue Chef" came from the print shop. The project, the work of five women who wished to raise money for St. Mary's school, was started more than two years ago.

The original idea was to publish a cook book which would feature recipes of all types to use pears grown in the Rogue valley. Gradually the plan expanded to include other types of cookery. The women not only solicited favorite recipes from friends and neighbors, but found themselves creating new ones. In their own kitchens they cooked and tested and eventually turned out some original recipes for the new book.

Husbands and children not only served as tasters and critics, but added their ideas to the recipes.

Eventually, the five women officially organized as the Rogue Chef association and elected officers. Mrs. Richard Randolph is president, and others working with her are Mrs. Edward Ford, vice-president; Mrs. John O'Hara, secretary; Mrs. Byron Dibble, treasurer; Mrs. George Davy, treasurer.

The new book has more than 400 recipes and these are divided into 10 different sections. Since the women wished the publication to have an air of informality, it is cleverly illustrated in considerable detail, the illustrations being the work of Mrs. O'Hara. Sections are marked with dividers of different bright colors.

First of the 10 sections is devoted to salads, dressings and vegetables. Others are meat, poultry and related casseroles; can openers; lentes; dishes using fish, eggs and dairy products; dessert, both family style and "frankly fancy" cakes, pies, crusts and meringues; frostings and sauces; cookies and candies; a section entitled "Pears and More Pears" and the last one is entitled "Remember."

"We wanted this new cook book to reflect modern day ideas and needs" said Mrs. Randolph, and the recipe titles certainly reflect this thinking. One recipe, contributed by Mrs. James Henry, is for "Goobyburgers." This dish, said to be enormously popular with youngsters, is a combination of beef, chili sauce and pickle relish served over buns. Rather like a hamburger, only "gooyer."

The Space Age is not neglected. Jeff Randolph and Mike Ford contributed a recipe for a "Sputnik Special" which they originated. It is a

Two-Piece Suit Back In Fashion

By FRANK EDGE
United Press International
Miami Beach, Fla.—UPI—Come summer, the two-piece bathing suit will be back in fashion.

It's a compromise between the daring bandana bikinis—prohibited on most public beaches—and the conservative two-piece of mamma's heyday.

The news came from a show of a designer's (Cole of California) 60 new models, ranging from \$12 to \$200.

"A whole new generation never has seen a two-piece bathing suit," said Anne Cole, vice president of the swim wear firm. "Because today's diets stress slim figures, these young things have narrow waists that make two-piece suits attractive."

A close-up view of a zebra-striped model, filled out by a petite brunette, gets Miss Cole's idea across with whistles.

For the curvy youths are vividly-colored beach wraps of sheer georgette, as glamorous as a negligee in the moonlight.

New beach designs also offer a wide selection of one-piece suits for women to whom the two-pieces are only a memory—or should be. Included are clinging knitted leotards with cap sleeves and suits with wrap-around skirts.

Molds Figure
The suits contain all the gimmicks developed since big leaves went out of style to pinch in a bulge here, restore a curve there, and otherwise cloud the vision of a critical male.

Cottons are making a comeback this year. The natural fiber holds colors of new suits, ranging from soft pastels of blues and lavenders to vivid hues, all in the same garment.

One bright, yellow-gold number is woven from the new synthetic, Myler, used to make a balloon-satellite which the United States hopes to launch in orbit. The material is impervious to almost everything and is more eye-catching around the shapely blonde than as a balloon. It will make a 65 cent in a charge account.

The makers describe the line as "light and bright." There is a nylon helanca wisp that weighs 0.7 four ounces. For those interested in that \$200 number—it is crusted with sequins and pearls.

Sift confectioner's sugar over a clean tea towel and turn the cooled roll onto the sugared towel. Spread with softened ice cream, roll loosely making 1 1/2 turns. Best way to care for wood floors

• Helpful tips by the world's largest maker of hardwood floors

Lovely wood floors are so easy to take care of when you use the right method. After years of testing, we learned that dry cleaning is best. And, happily, it's easiest, too.

You just pour Bruce's clean-as-you-wax combination of dry cleaning ingredients and liquid wax on the floor. All the marks, dirt and old wax wipe away easily. The dirt comes up on the cloth while lots of clean, rich wax stays on the floor. A light buffing and you're through in half the usual time—without messy, harmful scrubbing. Heavy traffic areas can be easily touched up again and again without redoing the entire floor.

We recommend BRUCE CLEANING WAX for a rich coat of wax, and BRUCE FLOOR CLEANER where less wax is desired. Both work clean-as-you-wax wonders on linoleum, too. Try this easier, better method the very next time you wax and see the beautiful difference.

FREE FLOOR CARE BOOKLET! Gives valuable tips on the care of wood, cork, linoleum, vinyl, asphalt tile, rubber tile, terrazzo and ceramic floors. Also wood panelling. Write today to E. L. Bruce Co., Memphis, Tenn., for free copy.
