

They'll Do It Every Time By Jimmy Hatlo

I'M ALL IN! THIS JOB IS WEARING ME DOWN—MISS POTTS—HAVE YOU GOT ANY ASPIRIN? RUN DOWNSTAIRS AND GET ME SOME, WILL YA? FETCH ME A GLASS OF WATER—MAYBE IT'D HELP IF YOU RUBBED THE BACK OF MY NECK—UN—WHAT'S ALL THAT WORK PILED UP ON YOUR DESK?

HE'S WORN DOWN—WHAT ABOUT POOR EMMY? HE HAS HER TEARING AROUND LIKE A SIX-DAY BIKE RIDER...

HE EXPECTS HER TO DO EVERYTHING BUT WAX HIS MUSTACHE—AN' HIS SERVICE STATION MAN DOES THAT.

I'D LIKE TO RUB HIS NECK WITH SANDPAPER, BUT HE'S TOO THICK-SKINNED TO NOTICE...

BIG KEMO SABAY OUGHTA PUT AN INDIAN MEDICINE MAN ON THE PAYROLL—HE COULD PAY HIM OFF IN BEADS AND CUT PLUGS...

STANDING BY AS THE BIG WHEEL RUNS HIS SECRETARY RAGGED WAITING ON HIM HAND FOOT AND CLAVICLE...

Klamath Indian Timber Sale Due

Portland—(UPI)—The Interior department said Tuesday that 11 units of the Klamath Indian forest in Oregon would be offered for sale over a period of about 16 months starting some time after April 1.

An announcement said the Interior and Agriculture departments have agreed on specifications and minimum requirements for sustained-yield managements of the units. Sale will be under provisions of the amended Klamath termination act of 1954.

The units selected total more than 617,000 acres and range in size from about 35,000 acres to more than 91,000 acres. The range in volume of timber is from about 69 million board feet to more than 548 million board feet.

CP Junior High
By Linda Myrick
And Gloria Watson

The practice track meet with Phoenix was to inform the squad of needs for the season. Pat Pepper broke three school records, Gary Wald, two, and Vern Swanson, one. The varsity team performed well, indicated top performance, but are still lacking depth for a real strong track team.

The junior varsity team indicates some top track personnel. Dennis Ryerson, Darryl Summerfield, Greg Faulkner, and Danny Mainwaring are being developed. Next Thursday, April 9, is a seventh and eighth grade track meet North Grants Pass.

Louie Alvarez, an eighth grader, broke his leg in the track meet with Phoenix. He had surgery at Rogue Valley hospital. He will be in the hospital a week and a half and will be in the cast for six weeks. He will be unable to walk normally for about six months.

Saturday, April 11, at 1:30 p.m. the Junior High band of 104 players with Harry Meyers, band director, will leave on three buses to play for the Pear Blossom Festival at Hawthorne park in Medford.

Student elections are now in progress. Each student applying for office is required to make formal application on the "eligibility form." Many applications have been filed. Elections will be the first week of May this year.

The seventh and eighth grade boys and girls are taking shop and home economics together for two weeks. The home economics students have made plain muffins, all-bran muffins, baking powder biscuits, and vanilla cupcakes. The shop students have made reed baskets. The eighth grade girls are making gathered skirts, and the boys have been working in copper tooling. They will start drawing next week.

Monday there was an all-school dress-up day. Many students appeared in their Easter clothes.

The girls have started their softball intramurals. There are 10 teams, with about 10 girls on each team. All teams play every Friday. Two games have been played.

Grange News

Gold Hill Grange
Gold Hill Grange had as a guest at the last meeting, April 2, Mrs. Carl Christianson of Live Oak Grange.

Mrs. Christianson brought with her a number of bells from her collection.

The bells range in size and material from the daintiest, china and glass ones, to the rather large and practical ones, some of larger ones being old school bells, used in this valley, and also cow bells, some of the latter being home made.

As she showed the bells, Mrs. Christianson gave an informative talk. Among other things, she told of almost all the countries of the world, from which the bells had been brought.

Then the visitor told of some of the bells of the world. It was interesting to note that there are huge bells in some of the countries, weighing many tons. This is quite in contrast to the tiny glass blown bell made in Czechoslovakia.

Preceding Mrs. Christianson's talk on "Bells" - two songs were sung by the Grange. "Annie Laurie," and "Aunt Dianah's Quilting Party." A number, "Old Fashioned Garden," was sung by a trio composed of Mrs. Norman Gail, Mrs. Roy Eskew, and Mrs. Paul Molloy.

There were a couple of stunts, a quiz contest, and as a finale to the program, there was an Easter tableau staged by Mrs. Willie McLean, in which the three Graces took part. Mrs. Leona Jenks, Mrs. Mildred Wright and Mrs. Josephine Leffler.

Following the program, the Grange entered upon the business meeting, opening with the regular seating drill.

The usual reports were given: agriculture chairman Chauncey Page stated beef prices still steady and hogs remaining low. Eggs are slightly higher.

Mrs. Ferd Jones told of the first house built in Oregon, the Crosby house in Portland, for which the lumber was shipped around the Horn. She also told of the first steam saw, the first flour mill, which was operated by horses and oxen. Mrs. Jones also spoke of the Methodist Mission established for Indians in 1840. Leona Jenks reported much was accomplished on the clean up day but there is still more to be done.

Reports from the secretary, Lena Laricks, and the lecturer, showed attendance up quite a bit this quarter.

The chaplain, Nora Wait, reported Wilbur Martin home from the hospital. HEC chairman Bertha Potter is ill.

Visiting Griffin Creek Master Herman Kamping, and insurance agent reported some increases, and some decreases in insurance.

Aside from Mr. and Mrs. Christianson, there were present from Live Oak, Mrs. Louise Dixon and Mrs. Willie Walker, and Mr. Kamping and Mr. Darby from Griffin Creek.

Christianson reminded members of the officers council to be held at Eagle Point, April 11. As this is the same

date that the Gold Hill Methodist women are putting on a Smorgasbord at the Grange hall, it is recommended that those going to Eagle Point attend the Smorgasbord early. Serving starts at 4:30 p.m.

Mrs. Willie McLean was elected alternate delegate to State Grange to be held in June at Baker. The Master, Charles Foote, will be unable to attend.

Refreshments were served by the S. M. Christensens and the Sam Jones family.

Mrs. Ferd Jones won the attendance prize.

The Grange is organizing a square dancing class which is open to all in the community. Anyone interested is welcome. Please contact the publicity chairman, Grace G. Bruce, telephone ULrick 5-1394.

Central Point Grange
Six new members received the first and second degrees at the regular meeting of Central Point Grange, Friday, April 3. The Ladies degree team exemplified the degrees to Mr. and Mrs. Thurman Barnes, Russell Frink, Bobby Kuest, Niki Tammond and Todd Caster.

Marketing Committee Chairman Mrs. O. T. Wilson reported on items of produce for sale by members. These included primroses, African violets, and eggs. Legislative Chairman Chester Wendt gave a resume of recent bills in the state legislature.

Mrs. Charles Jantzer, HEC chairman, reminded members to report the amount of their Grange sales slips to Mrs. Keenan soon, since it is time to send the report into the state Grange. Chaplain Mrs. Chester Wendt reported she had sent Easter greetings to some of the older members, who can not attend Grange.

The display table was explained by Mrs. Morris Frink, which was an exhibit of FFA record books, freshman class projects, and penants, that had been arranged by Ed Griggs, Crater High vocational agriculture instructor.

Worthy Master Benton Boyce presented the Grange a waste can to be placed on the sidewalk in front of the Grange hall. It is hoped that the public will use it, and do their part in keeping the sidewalk litter-free.

The Grange voted to give a 4-H scholarship.

Guests for the evening were Mr. and Mrs. Otis Jones and Mrs. Lottie Cingcade of Eagle Point Grange.

Announcements of important dates for Grangers to remember are the Grange council meeting Saturday, April 11, at Eagle Point. April 17 is visitation night at Roxy Ann Grange. April 22, HEC meeting with Mrs. Morris Frink. May 9 is fun and social night for Central Point Grange.

The serving committee for the evening were Mr. and Mrs. Walter Jensen, Mrs. Homer Bell and daughter, and Mrs. Effie Kurtz.

UPPER ROGUE GRANGE
The Upper Rogue Grange HEC presented a portable dishwasher to the Grange at its April 2 meeting.

Members wore old-fashioned clothes, in keeping with

the Centennial observance. Worthy Master Eda Torrance was in charge of the meeting.

Mr. and Mrs. Bill Miller were present for the first time since last fall, having spent the winter in Beverly Hills. They will spend the summer at their home near Trail. It was announced that Herb Carlton will attend the State Grange member in place of Paul Torrance, fire insurance agent.

Following the meeting, Mr. and Mrs. Carlton served refreshments.

Members and their houseguests will attend a Grange party the evening of April 24. Each member is to bring a sack lunch.

HEC members are to bring rummage to the meeting April 9 at 10 a.m. It is to be a "wash day" to prepare clothing for the sale which will be held April 11 at the hall.

Turbines Bypassed For Atomic Power

Los Alamos, N.M.—(UPI)—The first conversion of atomic energy to electric power, by-passing the use of steam turbines, has been announced by the Los Alamos Scientific Laboratory.

A spokesman said the experiment may mean "a revolution in the design of future fission reactors and the ultimate use of atomic energy."

The small-scale experiment "far exceeded all expectations" when a plasma thermocouple designed to light a bulb for a few minutes operated for 12 hours before the experiment ended.

The super-secret laboratory said present nuclear fission reactors produce high pressure steam, which powers massive turbines. The turbines then make the final conversion to electricity.

The new method used a small thermocouple, a device designed to make electricity by bringing two different metals into contact. One is heated and the other cooled.

Penang, the first British settlement in the Malay peninsula, was ceded to the East India Company in 1786.
