

## refreshingly different

The good taste of beer, the very character of beer, depends largely upon the excellence of the water used in its brewing. Much of light Olympia Beer's fame stems from its unusual brewing water. Flowing cool and clear from deep artesian wells, this extraordinary water brings out the most delicate flavors and aromas of select hops and grains. Rarely, in all the world, has water been discovered that is naturally perfect for brewing just as it flows from the earth. Olympia has such a water. That is why Olympia always tastes the same—yet refreshingly different!
