

CRAFTSMANSHIP—The new Mercedes-Benz 220 S, available through DeLeigh Motors, Medford, is a car of beauty with the riding and interior comfort of a large limousine and the performance of a sports car, according to the manufacturers. The automobile develops 120 horsepower with a responsive six cylinder, short stroke engine. The secondary barrel of two downdraft compound carburetors is automatically activated under high engine stress, contributing to the car's fuel-saving economy.

ADVANCED STYLING—On display at Hamlin Motor company is the 1959 Chrysler Windsor two-door hardtop, powered by a 305-horsepower engine. The car has new two-tone roof design, push-button air-conditioner and heater controls, advanced torsion bar suspension and extra-large rear window.

PRESENTED CAR—F. J. Niblett, Portland regional service manager for Plymouth, presents Mrs. Leonard Carlson, wife of the top salesman for Plymouth at the Dick Knight company, 33 South Riverside ave., Medford, with keys to a Plymouth Belvedere Sport Coupe. Plymouth division provides the wife of the top salesman in each of the 18 regions of the country with use of a new car for one year. Carlson was elected first vice president of the National Plymouth All-Star Salesman's club in New Orleans recently. (Knackstedt photo).

Crater FFA Group Elects Officers

Central Point — J. E. FASTER was recently elected president of the Future Farmers of America chapter at Crater High school. Others elected for the 1959-60 term were Don Denning, vice president; Don Ryan, secretary; P. T. Melsted, treasurer; Nate Banry, reporter; Larry Ryerson, sentinel; and Jim Frink, assistant treasurer. Officers reported that the

FFA offers more leadership experience than any other high school organization. The Crater chapter has a budget of over \$2,500 and owns a tractor and five implements, pop and apple dispensing machines, and a 15-acre chapter farm.

It is the second largest chapter in the state. Members won the state parliamentary contest this year and received a third place award in national competition for chapter activities.

The organization will hold its annual banquet April 30 with nearly 500 people invited. National president, Adin Hester, State President Jim Ross and Past State President Ed Manary will speak.

Numbers Racket in Pentagon Reported

Washington—UPI—More than cold war planning has been in progress at the nation's defense headquarters. Federal agents Thursday arrested two men in the Pentagon and charged them with the possession of gambling slips as the first step in a drive to stamp out a numbers operation running to "several thousand dollars a day"

URGES LOTTERY POLL
New York—UPI—Rep. Paul A. Fino (R-N.Y.) urged Thursday that Census Director Robert W. Burgess poll Americans on the question of a national lottery when heads are counted in the 1960 census.

Wall Street Chatter

New York — UPI — In comparison with other blue-chip companies, American Telephone & Telegraph remains clearly under-priced in the opinion of David J. Greene and Company.

In an investment study of AT&T, Greene forecasts \$15 per share earnings for 1959. \$5 on the new stocks with further increases in 1960 and beyond, and with dividend increases in line.

Gersen Publications says all indications point to continued airline strength in coming months with a bright spot the prospect of further rate relief. . . . says the area to watch for dynamic future sales growth in the drug industry is the steroid hormone market. . . . notes elimination of past unprofitable lines and addition of a promising new one — plus prospects of further acquisitions aided by a \$19 million tax loss carry-forward — enhance Servel's outlook.

Distributors Group Inc. reports holdings of "defensive" issues such as utility, bank and insurance company stocks were reduced from 41 to 4 per cent of the fund's assets in the past 12 months while more cyclical issues such as those of aviation, building, chemical and drugs, electronics, machinery, mining, petroleum and rails were increased from 33 to 78 per cent.

Civil Service Tells Of New Examinations

New examinations for typist and operators of miscellaneous office machines have been announced by the U.S. Civil Service commission. The tests are for filling positions in various federal agencies in Washington, D.C. and vicinity and in overseas areas. Applications and further information are available from L. B. Nelson at the Medford post office.

A TIP FOR EVERY FAMILY...

stop longing... start living!

LIVE BETTER BY FAR WITH A BRAND NEW CAR

Happiness Ahead for EVERYONE!

A new car is a pleasure. A pleasure to look at, to drive, to own. And it's fun for everyone. The whole family gets a kick out of a new car. Pop feels like the skipper of a superliner and Mom is as proud as a queen in a coronation carriage. The kids are so excited that they don't know just how they feel. They just feel good!

It's a pleasure also, to know that when you purchase your new car, you're getting one of the engineering masterpieces of the twentieth century. Years of research and years of experience have been incorporated in the 1959 models built by the automotive industry. You get more value than ever before!

Your friendly Dealer invites you to see, try, buy the car of your choice...now!

MEDFORD AUTOMOBILE DEALERS ASSOCIATION

THE AUTOMOBILE CHARTED a new way of life for America. Opened up vast new vistas of opportunity. Created modern, stream-lined, attractive factories. Brought wealth to the far corners of the land. We, the members of the Medford Automobile Dealers Association, are proud and happy to have had a chance to share in the creation of a richer, fuller life for many, many people.
