Locked-Out Group Loses Jobless Pay

Salem—UPI—An Unemployment Compensation commission referee ruled Tuesday that operating engineers who were "locked out" in last summer's construction strike are not eligible for unemployment insurance.

Referee C. F. Addison said that unemployment due to a strike, lockout or other labor dispute is not insured under Oregon law.

He said this includes non-participants who are in the same class of employment as those participating in the strike.

The ruling affects over 700 workmen of the building crafts who were unemployed during the August, 1958, strike against the Associated General Contractors.

was won by Shady Cove by a score of 8 to 7.

The talent show given by the senior class of Prospect High school was reported to be a success, with about 200 people attending. Many people of the community took part, with talent coming from as far away as Central Point and Medford.

Fryer Labeling Act Passes Senate

Salem—UPI—All fryers sold in Oregon must be labeled as to the state where they originated and also state what food preservatives have been used, according to a bill passed by the Senate and sent to the governor Tuesday.

Sen. Robert Straub (D-Springfield) said an influx of fryers from the South had depressed the \$1 million fryer industry in Oregon.

"This bill will not prevent shipment of fryers into Oregon from other states," Straub said, "but it will inform the buyer where the fryer came from and the purchaser also will be assured that a fryer has been freshly killed."

Enforcement of the act will be up to the Oregon Fryer Commission.

Hearing Aid Dealer Bill Passes House

Salem—UPI—A bill licensing hearing aid dealers and controlling their advertising to prevent misrepresentation passed the Oregon House Tuesday and was sent to the Senate.

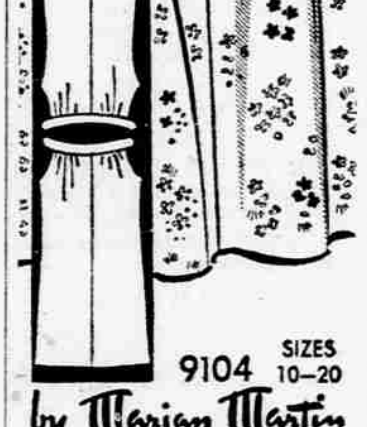

Rep. Norman Howard (D-Portland) carried the bill on the floor to a 51-8 victory. The bill provides that dealers in hearing aids must pass an examination and then be licensed by the State Board of Health.

The board will set up standards with which dealers must comply. If the bill passes both Houses of the Legislature and is signed by the governor, Oregon will be the first state in the union to have such controlling legislation.
