

More Emphasis on Non-Military Is Favored in GD

Corvallis—More emphasis on non-military "tools" of foreign policy received strong backing by Oregon Great Decisions discussion groups closing a 10-weeks' series to review key policy decisions in Oregon and the nation.

Individual balloting by discussion group members in 22 Oregon counties also recommended the U.S. make greater use of the United Nations wherever possible.

Ballots were tabulated this week by Oregon State college extension service on the discussion topic, "What Challenges to Diplomacy and Citizen?"

Debate Foreign Policy

Three-fourths of the voters thought U.S. citizens should debate foreign policy freely at any time, while about 15 per cent said citizens should refrain from public debate during times of foreign policy crisis. About 50 per cent favored U.S. encouragement and help to private enterprise to play a larger role in foreign investment and economic development, and 17 per cent opposed such help. Others expressed no opinion.

Eighty-five per cent believed the U.S. should place greater emphasis on non-military phases of foreign policy such as economic development, cultural exchange and political cooperation. Two-thirds favored increased diplomatic pay and prerequisites to develop professional career diplomats to serve in more posts.

Concluding Discussion

The concluding discussion of the series also brought a 90 per cent vote favoring participation in Great Decisions next year. About 75 per cent said the series would give them better understanding of future news developments in foreign policy.

Great Decisions is sponsored by Oregon State college extension service, the general extension division of the state system of higher education, Foreign Policy Association, the World Affairs Council of Portland, Oregon state department of education, the state library, and other statewide organizations.

Two-Car Crash Takes Seven Lives

Palm Springs, Calif. — (UPI) — Seven persons were killed in a grinding two-car crash Wednesday when one of the autos containing five persons was struck broadside as it turned off Highway 60-70-90 about eight miles east of here.

All occupants in both cars were fatally injured.

California highway patrolmen said a car driven by Jean M. F. Deluz, 50, Anaheim, Calif., smashed into the turning auto driven by Jack W. Friedman, 72, Banning, Calif. Patrolmen said the Deluz car was speeding. No skid marks were found at the scene.

"We had to call two trucks to pull the cars apart," said Sgt. I. I. Baldwin.

The dead were in the Friedman car, Friedman and his wife, Martha, about 65; his housekeeper, Mrs. Nora Pearl Baker, about 65; Horace Potter, 74, and his wife, Ruth, about 70, of Banning.

In the Deluz car, Deluz was killed along with his passenger, Gertrude Veltre, 40, Arcadia, Calif.

Commission Holds Uncashed Checks

Salem — Ninety-two checks involving \$2,891 are being held by the Oregon State Industrial Accident Commission because of incorrect mailing addresses of the workers involved, according to Chairman William A. Callahan.

Twenty-seven other checks involving \$993 and issued more than two years ago never have been presented for payment, he added.

Unless the checks are claimed or cashed soon, workers may lose the amount to which they are entitled, Callahan warned.

Workers whose checks are being held may receive them upon furnishing the Salem office of the commission with the following information: Name, date of injury, name of employer at time of injury, and signature. If a check has been lost or destroyed the same information should be furnished, but in addition, it will be necessary to complete certain forms before a duplicate can be issued.
