## Extra Dollar Tag On Fishing Voted

Salem - (UPI) - The House Tuesday reconsidered and passed a bill putting an extra dollar fishing tag on salmon and steelhead for use in research. The bill now goes to the governor for signature.

Rep. William Holmstrom (D-Gearhart) said the money would be used in pond rearing and natural spawning area research.

Rep. George Annala (D-Hood River) protested that the bill was just another way of raising taxes and that the State Fish and Game Commission had no concrete plans as to how to use the money. Holmstrom said that Washington has had good luck with rearing pond experiments to preserve fish resources and that Oregon needed a similar program.
