

Lower Mercury, Rain Due in May

Suitland, Md. — (Science Service) — The Weather Bureau's 30-day forecast for May calls for higher temperatures in the East, with lower thermometer readings for the West.

Temperatures are expected to average above normal over the eastern half of the nation except for near normal temperatures from the Great Lakes eastward to the New England states. Greatest departures from normal are indicated in the Ohio and Tennessee valley regions.

Below normal temperatures are expected to prevail over the western half except for above normal readings in the southwest border states. Coolest weather is anticipated for the northern Rocky Mountain states.

Precipitation is expected to exceed normal over the Pacific Northwest and intermountain areas as well as in a border belt extending from the lower Missouri Valley east through the Great Lakes and the New England states. Subnormal rainfall is predicted for the northern plains and also in a zone extending from the southern plains through the Ohio Valley.

In unspecified areas, near normal amounts are in prospect.

POSTMEN'S DANGER

Rio De Janeiro, Brazil — (UPI) — Postmaster Agelico Loureiso was unimpressed by the report that a U.S. mailman who has just retired was bitten by dogs 10 times during his career. "Our rural carriers are often bitten by jaguars," Loureiso said.

They'll Do It Every Time

By Jimmy Hatlo

Pearson Fails in Mall Fund Cut

Salem — (UPI) — An effort by Senate President Walter Pearson (D-Portland) to reduce an appropriation for purchase of land in the Capitol Mall from \$700,000 to \$500,000 was balked when the Senate refused to suspend the rules Tuesday to amend it.

Pearson contended that the property below Union st. in Salem should be freed and the Mall be restricted to Union st. or perhaps Chemeca st. Contending that it was too late now to change the limits of the Mall, Sen. Eddie Ahrens (R-Turner) urged the Senate to support the ways and means recommendation of \$700,000. It did and the bill now goes to the governor.

GRANDVIEW Women Meet at Boe Home

By LILLIAN KNIGHT
Grandview — Mrs. Warren Boe was hostess for a get-acquainted coffee hour at her home, 2198 Buckshot rd., Tuesday morning, April 28. The occasion was to welcome Mrs. Frank Friese, wife of Machinist Mate First Class Frank Friese, who has been assigned to duty in the Navy recruiting office with Chief Boe.

The Friese family is from Chahalis, Wash., and came here from Long Beach, Calif., his last duty station. Attending were two Army wives, Mrs. Warren Long and Mrs. William Power, two Navy mothers, Mrs. L. L. Poutre and Mrs. Laura Wick-er, and two friends of Mrs.

Boe, Mrs. John O'Dell and Mrs. Bob Romback. The Reverend and Mrs. Martin Brown and two children, Marilyn and Mark, of Bridgeview, were Thursday visitors at the home of her mother, Mrs. Lillian Knight.

Kindergarten for the children entering Lone Pine school this fall began Monday, May 4. Hours are from 9 to 11:30 a.m. Children will ride the regular bus to school and the parents are to see that they have a way to get home.

The class is in the basement audio-visual room with outside entrance facing the school lawn, where they will have their play activities. Mrs. Barbara Reedy, former third grade teacher at the school, will be the instructor. The school is in the process of the Stanford achievement tests this week.

On May 8 from 1 to 3 p.m. the Lone Pine girls will be hosts to a track meet at the school.

On May 15 an outdoor band concert is scheduled at the Lone Pine school, under the direction of Richard Michaelis, music director. This to be on the front lawn, weather permitting. Should the weather be unfavorable the concert will be postponed until a later date.

This past week Wilson school students were given the Stanford achievement tests. Friday the combination of the year's health instruction program was climaxed with the giving of health awards. Mrs. Ruth Kaye's sixth graders won the plaque for the highest percentage rate of students being on the health honor roll, with a rating of 92.8 per cent.

Landscaping of the grounds have been started with the digging of the ditches for water pipes and the planting of two azalea plants that are in full bloom in front of the building at the office entry.

The last Lone Pine PTA meeting of the year will be held in the Lone Pine school gymnasium Tuesday, May 12. At this time installation of the new officers for the coming year will take place.

Mrs. William Clark is the new president; vice-president, Mrs. L. E. Edwards; treasurer, Mrs. Chester Keene, and secretary, Mrs. W. A. Strawn. Refreshments will be served in the cafeteria by mothers of the first graders under the direction of Mrs. Dale Pratt and Mrs. Malcolm McSwan. Child care will be provided by members of the 4-H club.

Lone Pine PTA delegates to the state convention held in Corvallis April 25, 26 and 27 were Mrs. William Strawn, Mrs. William Clark, and Mrs. Walter Stroup.

Area Musicians Return from Trip

Three area musicians recently returned from Longview, Wash., where they attended a Northwest Conference of Musicians, representing the local union.

They are J. Vernon Marshall, Medford, secretary-treasurer and business agent; Blain E. Trickett, Medford, and Paul Powell, Josephine county steward and board member.

About 95 delegates, representing 43 locals, attended the conference, at which George Davis, Spokane, Wash., was reelected president of the Northwest Conference.

NO STOPPING HIM
Port Colborne, Ont. — (UPI) — Capt. O. Kruger of the Danish tanker Asia was told that the bridge of his ship was six feet too wide to get through Welland Canal. Kruger promptly ordered three feet cut off each side and sailed through.

The Family Council

Editor's note: The Family Council consists of a judge, a psychiatrist, three clergymen, a newspaper editor, a woman's editor and two writers. Each article is a summary of an actual report. The Family Council does not give advice; it merely reports on problems that have been dealt with by responsible agencies and counselors.

Mrs. F. S. — She should give him another chance.
Dorothy K. — This is one thing I can't forgive.

Women's Prison Planning Funds Are Restored

Salem — (UPI) — The Oregon House has voted to restore planning money for a proposed women's prison into the budget for building state institutions.

These funds had been eliminated by the Senate. Another Senate cut for a rehabilitation center at the new intermediate penal institution here was not disturbed by the House.

The bill will now have to go back to the Senate for confirmation of changes.

Total cuts in the bill amounted to more than \$1 million.

Interest Charge
The House passed a bill to require one per cent interest charges for persons who pay state income taxes by installments.

The vote was 37-22. All but two opponents were Republicans.

The measure is designed to raise an additional six or seven million dollars a biennium. A conference committee of the House and Senate had voted for the one per cent rate. The original House passed bill would have eliminated quarterly payments. The Senate amended this to a half per cent interest rate.

Chicago Fair To Lure Tourists

Chicago — (UPI) — Visitors to Chicago this summer will participate in one of the city's biggest tourist seasons.

Along with the normal amount of activity in museums, parks, sports, concerts, beaches, there will also be the International Trade Fair from July 2 to July 18 to celebrate the long-awaited opening of the St. Lawrence Seaway. Participating in the observances will be Queen Elizabeth II, as monarch of neighboring Canada.

The Festival of the Americas, from Aug. 3 to Sept. 7, will include the Pan American Games from Aug. 27 until its conclusion. Called the Olympics of the western hemisphere, the Pan American Games will bring to the U.S. more Latin Americans than any other single event in recent years.

Chicago is preparing not only to accommodate the athletes but to provide the necessary facilities for their competition. Rowing events, which cannot be held on the choppy Lake Michigan, will be moved to the river and canals of the Illinois Waterway.

Celery Chemical Aids Sun Tanning

San Francisco — (Science Service) — A chemical present, in small amounts, in celery aids the normal sun tanning process in humans and helps protect against excessive sunburn.

Known as 8-MOP (8-methoxy-psoralen), it is most prevalent in the fruit of an Egyptian plant and was originally used to treat patients suffering from vitiligo, a disease that causes areas of the skin to appear bleached.

Dr. Francis P. Rhoades, a Detroit physician, described the chemical to family doctors at the American Academy of General Practice Scientific Assembly here.

Sunlight activates production of the skin pigment melanin. When 8-MOP is taken two hours prior to exposure, Dr. Rhoades said, the skin's physiological reaction is altered as certain layers are thickened and the body's output of melanin is increased.

Dr. Rhoades said there is a "definite need" for agents that will combat the effects of damage caused by light rays that produce chemical changes. 8-MOP is commercially available in capsules or tablets.

my husband. He was always sneaky, doing things behind my back. I suspected women, but later I learned I was wrong—until recently. He used to just hang around with a gang of bachelors, doing a little carousing. He always complained about having to work such late hours.

We used to have fights about every little thing. I could put up with the constant bickering, but once I learned there was another woman, that was the last straw. That's one thing I can't forgive—maybe because of my own father.

As for his loving the children, that's a laugh. A man who loves his children doesn't bother with other women. His home is too precious.

The Council: We don't blame Dorothy for putting infidelity in a separate category from gambling. Aside from the serious violation of the moral code, infidelity is usually taken as a deep personal insult to the marriage partner.

But surprisingly, infidelity is seldom the real cause of the breakup of marriage. Sociologists today agree that infidelity is more often a consequence of a bad marriage.

In this sense infidelity is in the same category as gambling or other home-wrecking devices. The offending partner seeks and finds some childish compensation for some of his problems. Men

indulge in this kind of compensation because it comes easier to them. But equally destructive is the nagging and criticism that is the only socially acceptable outlet for most women.

Dorothy recognizes that much was wrong with the marriage before the infidelity. Her mistake is in putting the entire blame on her husband. It just isn't possible for one partner to be entirely right and the other entirely wrong.

Dorothy can learn much from her mother's experience. But she should recognize that more is involved than giving her husband "another chance." And more is involved than forgiving the infidelity. Too many second chances go wrong because the individuals don't make an effort to understand and deal with the real problems on a more mature level. For this, it would be wise to seek help from a qualified source.

Case of Medford Man Continued in Court

The case of Francis Merle Wallace, 23, of Medford, who is charged with making a false statement to procure benefit, has been continued to May 15 for sentencing in district court.

Wallace had pleaded guilty to the charges previously. He is charged with issuing a false check for \$5 to Blew's Oil City on March 1.
