

Steel Industry Buildup Lagging In Face of Threat

Cleveland, Ohio (UPI)—The steel inventory buildup in the face of a threatened strike on July 1 is not progressing as rapidly as hoped even though shipments will exceed consumption by more than a million tons this month.

Steel magazine the metalworking weekly, said that if the United Steelworkers do strike there will be more than a few consumers seriously threatened. If the walkout lasts more than three or four weeks, some manufacturers may be forced to shut down.

The major reason for the inventory deficiencies is the suddenness of the business recovery, according to Steel. The magazine said that metalworking executives had no idea that sales would improve so rapidly. Many underestimated second quarter needs and have had to divert steel purchased for stock into immediate use.

Automakers apparently are apprehensive about their inventories. Ford Motor Co. and American Motors Corp., after repeatedly boosting production schedules, are in the market for extra tonnage.

Chrysler Corp., is trying to achieve a 45-day inventory by the end of May and a 90-day inventory by July 1. Ford, with a 30-day inventory, has similar aims.

The inventory crisis is compounded by the fact that the steelmakers are behind schedule on shipments of flat-rolled products and heavy plates. Consumers face delays of three to four weeks on cold-rolled, hot-rolled and galvanized sheets. Shipments also may be hindered by a shortage of trucks and freight cars and scattered wildcat strikes.

Steelmakers last week operated their furnaces at 94.5 per cent of capacity, unchanged from the previous week, and produced 2,676,000 net tons of steel. Nine of the 12 steelmaking districts were at or above the national output rate.

The trade weekly said the third quarter outlook for steel is brightening. Plates, galvanized sheets and tin mill products will be in strong demand even if a strike is avoided.

The construction industry may set higher records this year than anticipated by the experts—\$52.3 billion in work put in place. Steel reported that building had picked up a lot of momentum during the first four months, contract

awards are continuing at a high level, housing starts have shown only a slight decline, and industrial construction is beginning to pick up.

Industry leaders predict there will be a more stable, less hectic market over the rest of the second quarter for copper, lead, zinc and aluminum. They forecast lower price changes, a continuation of sales at near present levels with perhaps slightly less hedge buying, and more market conservatism as contract negotiations draw near.

Steel's price composite on steelmaking scrap was off 66 cents to \$33.87 a gross ton last week, lowest since May, 1958.

Russian Census Shows Increase, Eastern Trend

Moscow (UPI)—Results of the first nationwide census in 20 years showed today that the Soviet people are growing in numbers and moving east.

The census figures, published Sunday, showed the population had risen to 208,800,000 from 171 million in 1939, about in line with estimates of the past few years.

The Soviet Union was able to show the growth despite losses of millions in World War II mainly because of its acquisition of the Baltic republics, Bessarabia, Eastern sections of Poland, the Western Ukraine and other territories.

Third Most Populous
This enabled Russia to remain behind China and India as the third most populous nation in the world.

World War II meant more than a statistical loss. It left the Soviet Union with 20 million more females than males. The census report said the nation has the world's lowest death rate and highest marriage rate.

The report reflected the Soviet Union's massive effort to settle its vast Asian territory. It showed a shift to the east as pronounced as the westward movement in the United States.

A normal dairy calf such as a Holstein, develops from a birth weight of about 91 pounds to an average weight of 1,075 pounds in two years.

HAWAIIANS FOR PRESLEY
Tupelo, Miss. (UPI)—This city's drive for funds to complete the birthplace memorial to rock 'n' roll singer Elvis Presley announced today a Hawaii fan club has joined the effort.

GETS BONUS BABY
San Diego, Calif. (UPI)—The San Diego Zoo reported it had received a bonus with the three koala bears it ordered from Australia. A fourth baby was found to have stayed away in its mother's pouch.
