

# Winds Halt Search For Martin Auto

Hood River —(UPI)— Diving operations in the Cascade Locks old lock canal were resumed today for the station wagon of the Kenneth R. Martin family of Portland, if strong winds in the Columbia Gorge slack off.

Sheriff R. L. Gillmouthe said the winds Tuesday prevented continuance of the search, which started Monday by the Fred Devine Diving company of Portland.

The renewed search for the Martins, missing since Dec. 7,

was spurred by the finding of two of the Martin daughters in the Columbia river less than two weeks ago. Mr. and Mrs. Martin, the eldest daughter, and the family station wagon have not been found.

**MINISTRY GETS BIRD**  
Tokyo — (UPI)— Bird lovers were incensed today at the timing of a forestry ministry announcement that sea gulls are fair game for hunters. This National Bird Week.

### The Medical Roundup

by *Walter Alvarez*

Emeritus Consultant in Medicine, Mayo Clinic  
Emeritus Professor of Medicine, Mayo Clinic

The National Multiple Sclerosis Society (237 4th ave., New York 10, N.Y.) now is asking for money to support research which is leading to the discovery of the cause and cure of multiple sclerosis. This is a disease in which the sheaths of nerves all over the body are damaged.

Dr. Alvarez sheath is the covering of a nerve which resembles the insulation around a telephone wire. The result of injury to these sheaths is a chronic and crippling disease which will weaken a muscle here and later another muscle there.

Fortunately, it doesn't influence the mind. Fortunately, also, a considerable percentage of the patients keep going, and quite a few keep at work in spite of their handicap. I know such a woman who, for years, has run her home from a wheel-chair. There are perhaps 250,000 known cases in the United States. Probably an equal number are walking about with the correct diagnosis not yet made.

I think it always helps people to join a society like this, made up mainly of people who have the disease. It takes away some of the loneliness from the patient, and he or she knows then that as soon as anything worthwhile is discovered, he will be notified. He can find out also if there is anything to rumors that a cure has been found in Russia, or elsewhere. So far, unfortunately, all these rumors have proved to be false.

**Meniere's Disease**  
Dr. John J. Rainey writes of the sometimes violent attacks of Meniere's syndrome in which everything will start spinning around a person, or he will seem to be spinning around, and with this there will come nausea and perhaps vomiting. In these cases, the first thing a patient should do is to see a good ear man who will usually find something wrong with at least one of the ears. Often there comes some failure of hearing. There is no ideal treatment. Dr. B. T. Horton used to desensitize these people to histamine by giving them repeated small injections of the substance. Some physicians take away the patient's table salt, and others give injections of nicotinic acid. As Dr. Rainey says, take comfort from the fact that "No one ever dies of this affliction. If you are patient, time will heal you."
