**SP Net Income Reported Higher**  
Boston—(UPI)—Southern Pacific President Donald J. Russell told stockholders today that net income for the first quarter of 1959 was 50 per cent higher than for the same period last year.  
It was \$18,182,062, or \$2.01 per share, compared with \$12,023,488, or \$1.33 for the first quarter of 1958.  
Russell attributed the rise to increased efficiency stemming from the company's long range capital improvement program. He said \$90 million dollars has been allocated for such improvements this year, including 70 new diesel locomotives.  
But Russell said the S. P. and other railroads must gain the right to offer a diversified transportation service if they are to improve their competitive situation. He urged support of three bills before congress giving railroads permission to engage in highway, air and water activities.  
He said it also was necessary to modernize working rules which "needlessly restrict the productivity of railroad workers."

# ACTRESS SUED
