## Wall Street Chatter

New York —(UPI)— Erratic market movements are foreshadowed and caution should continue to play a part in all stock investment policies now and as long as the market is dearly valued, says Moody's.

Walston and Co., analyzing North American Aviation suggests a switch into that issue from the electronics and missile groups, estimates earnings of the company for 1959 around \$3.55 against \$3.34 in 1958.

Chrysler earnings for the June quarter probably will exceed \$4 a share, W. E. Hutton and Co. hears.

Caterpillar Tractor, helped by a sharp earnings rise in the first quarter should show 1959 results up impressively from 1958, says Arthur Wiesberger and Co.

R. H. Macy earnings in year ending Jan. 21, 1960, probably will show earnings of around \$3.75 a share, as against \$3.20 for the previous fiscal year, says Francis I. Du Pont and Co.

American Bosch 1959 sales are expected to come close to those of 1957 when the record of \$134.3 million was set and are expected to trend higher in 1960, according to Investors Advisory Institute.

## Tahoe School Holds Classes in Skiing

Stateline, Calif. —(UPI)— For about 600 students of the Lake Tahoe Unified School District an "S" has been added to the Three R's. It stands for skiing.

School authorities have designated skiing as a formal part of the school curriculum for pupils from the first to the eighth grades. They receive 15 hours of instruction spread out over a nine-week course at Heavenly Valley resort in the Sierras.

Eric Sailer, former Austrian champion and Heavenly Valley ski school instructor, is in charge of the course. The children are classified as beginners, intermediate or advanced skiers.

According to Chris Kuraisa, Heavenly Valley general manager, "The training these boys and girls receive provides them with the poise that city children might get from ballet lessons or ice skating."

Brazil is the only country in South America in which Portuguese is the native language.
