Railroad Shares Sustain Strength
New York - (UPI) - Railroad shares reached their best level today since Aug. 3, 1956, and their strength sustained the general market. Industrials rose but utilities sagged. Rails turned a bit ragged late in the day on realizing after two sessions of rise. Their average was sustained by a rise of more than 2 points in Kansas City Southern. Many leading industrials rose a point or more to lift the average for that group. These included U. S. Steel, Allied Chemical, American Telephone, DuPont, and Westinghouse Electric. Ford was the star in the motors. It equaled its high for the year on a rise of nearly 2 points.
