

BIG, SAFER BRAKES

There's 27% more lining area, and you all know what *that* means. Lots longer lining life. And the wider brake drums extend into the airstream. Brakes stay cooler and are more resistant to fade.

easy to care for

Who wants to fiddle around with wax and polish for hours on end? Not *you*, when a new Chevy comes equipped with Magic-Mirror finish. If you can't talk your wife into it, just swish Chevy with a cloth and water and *that's it!* If you see a smug grin in the reflection, why not? You have a *right* to be smug—you picked Chevy!

NINE-PASSENGER WAGON FOR NINE KING-SIZE PEOPLE

Your Kingswood 4-Door will take nine big anybodies, not just kings. Rear seat *faces rear*, too, for fun.

RIDES GREAT

Well, naturally, it's a Chevy, isn't it? With Full Coil suspension? You can't *get* a much smoother ride than that. Full Coil does wonders for a wagon... especially a fully loaded wagon. This one *handles* great, too. Takes the striving out of driving. But you'll just have to try it for yourself.

HAULIN' SIZE TIRES
We put big 8.00 x 14 Tyrex cord tires on every station wagon. We're the only ones who do. *No extra cost*, either, even though they ride smoother & last longer, even with a full 1/2 ton load.

LOADS OF ROOM

Fit a whole half-ton of fishing gear into your Chevy wagon, if you like to be sure you've got enough. Or you can sleep in that roomy back end—even if you're ten feet tall. (Be sure to bring a mattress.)

and easy to load!

Tailgate folds down as easy as dropping a plug into a stream. No liftgate to fool with (but more about that later). And the tailgate is wider, too, for easy loading.

SECOND SEAT FOLDS EASY, SITS EASY, TOO
Quicker than we can say, you fold Chevy's comfy second seat & get a long, wide, *flat* cargo compartment.

REAR WINDOW ROLLS
right down into the tailgate, as we hinted above. It fits neatly and safely. The tailgate *can't* be opened when the window is up. We think of the nicest things.
