Hicks Set For Jordan

Seattle—(UP)—Schoolboy Bob Hicks will meet welterweight champion Don Jordan in a six-round exhibition next month, it was announced Friday.

George Chermes, Hicks' manager, said the bout would be part of a regular boxing show.

Lanny Quintoli, Aberdeen-Hoquiam promoter, is interested in staging the program in the Grays Harbor area, Chermes said. He added that a site has not been decided on as yet because other offers have been received from Kennewick and Seattle.

Jordan will count the exhibition as part of his training for his title defense against Denny Moyer in Portland July 10.

Chermes said the meeting with Jordan would be a good test for the undefeated Hicks and perhaps give some indication as to whether he is ready for bigger game.

Lane Association Statements Irk Sen. Neuberger

Washington—(UP)—Sen. Richard L. Neuberger (D-Ore.), Sunday criticized as "unfair and abusive" statements about the United States Park Service by the Western Lane County Taxpayers association.

The statements were made publicly in connection with Neuberger's bill to create a National Seashore Recreation area in the Oregon Dunes.

Favors Open Discussion

"I favor full and open discussion on this proposal," Neuberger said, but he added that "certain comments" of the taxpayers association were designed "merely to inflame public opinion without adding anything to the substance of the debate."

The senator cited letters sent to newspapers and civic groups over the signature of John S. Parker of Florence, chairman of the Lane county group's information committee.

Comparison 'Absurd'

Neuberger said Parker had referred to Park Service officials as "moving quietly among us like agents of a foreign power."

Neuberger termed the comparison "absurd." He said the use of "hysterical charges against passage of my bill can only hinder reasonable discussion of procedural questions involved."

Search Called Off For Two Brothers

Newport—(UP)—An extensive Coast Guard search for two brothers missing in the surf three miles south of the south jetty of Yaquina Bay was called off last Sunday. Missing are John Clark, 47, and Kenny Clark, 50, of Albany.

A Coast Guard cutter, and a 40-foot patrol boat, along with a beach patrol, searched from Saturday afternoon when the men were reported missing, until late Sunday with negative results.

The brothers were fishing with two companions, Harris Poore and Frank Nightengale also of Albany, off the surf in a 15-foot outboard skiff. Poore and Nightengale left the boat about noon Saturday and the Clark brothers went back to sea.

Late Saturday afternoon, their damaged and capsized boat was sighted by a Yaquina Bay resident who reported it to the Coast Guard.

A Coast Guard spokesman said the search was "hopeless." He said the men did not have lifejackets and there was little chance they would be found soon.

Kennedy Decision Due Early in 1960

Washington—(UP)—Sen. John F. Kennedy (D-Mass.) said he will decide "by the first of 1960" whether he will run for the Democratic presidential nomination.

Kennedy warned his fellow Democrats Sunday that they would be "very contemptuous" of the voters if they assumed that any Democrat could win the presidency in 1960.

"The odds are with the Democrats but the candidate has to be as strong as the party is," he said.

Kennedy is regarded by his Democratic colleagues as a front-runner for the nomination, even though he has not formally announced his candidacy.

Recreation May Pass Lumbering

Salem—(UP)—Thomas J. Williams, superintendent of Crater Lake National Park and Oregon Caves National Monument, told the opening session of the 54th annual Oregon Bankers Association convention today that by the end of this state's second 100 years of recreation will have surpassed lumbering as a forest resource.

Williams said logging practices would have to change in order to produce more and better timber on less acreage.

"This can be done," he said, "but the industry will have to be forced to it."

He suggested that banks acquire foresters as staff officers to keep pace with "changing values in this major resource."

Williams said the recreation industry, a \$50 billion one last year, could increase at least 40 times over with the future population growth and greater percentage of "leisure in prospect."
