Gas Tank Cars Moved Out of Town

McRae, Ga. –(UPI)– Wreckage crews carefully uprighted two tank cars carrying chlorine gas here Monday and moved them out of McRae.

The cars derailed and overturned here Sunday night. A standby state of emergency was proclaimed by city officials for fear of leaking chlorine gas, which is poisonous.

Rex Putnam's Condition Poor

Salem–(UPI)–The condition of Dr. Rex Putnam, Oregon superintendent of public instruction, remained poor at Salem Memorial hospital today. Attendants said he spent a more restful night. Dr. Putnam suffered a heart attack last week.

More than half of all the hospital beds in the U.S. are occupied by mental patients.

Lucille Ball's Antics Turn Television Show Into Hilarious Program

By WILLIAM EWALD
UPI Correspondent

New York–(UPI)–There's not much doubt that Lucille Ball owns one of the major comedienne talents of our time. Miss Ball may be the only current example of a human being who can punctuate a scene with her eyeballs. They are extraordinary jellies and she has a spooky ability to knead their pulp into exclamation points, question marks, semicolons, hyphens, parentheses and even an occasional ellipsis.

William Ewald

She has a marvelous lemon meringue face and a shock of hair that can only be described as cheerfully insane. She couples all this to a body made of pure grasshopper, one that bounds in and out of scenes with the kind of disjointed abandon of an experienced stiltwalker. The combination is all sublimely grotesque and Miss Ball makes it work for her with the casual elegance of genius.

Monday night, Miss Ball delivered a sturdy demonstration of her art in "Lucy's Summer Vacation," a one hour entry of the CBS-TV Lucille Ball-Desi Arnaz Show. The script was a bewhiskered example of comedy writing–two couples booked into the same vacation cabin my mistake, the girls stuck with the fish cleaning, a climax in a leaky rowboat–but Miss Ball made it play.

Joints Fattened

Even more important, in several of its parts, she made it play hilariously. Perhaps the finest example of her genius in firing dead matter occurred in a scene in which she was awakened at five in the morning to go fishing–a terribly thin bit, but Miss Ball fattened its joints with wondrous skill.

Miss Ball was aided in all this by Arnaz, who, incidentally, plinks out a very creditable counterpoint to his wife's antics, and by Ida Lupino and Howard Duff, who managed not to be overwhelmed. That is to their credit. Miss Ball, after all, just steamrollers every one else when she shifts into gear.

Quotes From the News

By UNITED PRESS INTERNATIONAL

Edwards AFB, Calif.–Test Pilot Scott Crossfield, on landing the experimental rocket ship X-15 after a powerless glide from 38,000 feet:

"You still fly an aircraft by the seat of your pants."

Washington–President Eisenhower on his proposals for new economic legislation:

"This is a fight to make sure that a dollar earned today will tomorrow buy for the housewife an equal amount of groceries."

Phoenix, Ariz.–Nato Manuel Gloria Jr., driver of the truck in which 16 migrant farm workers were killed and 32 injured:

"I fell asleep at the wheel. When I woke up, the truck was on fire and the guys in the back were screaming."

London–Evangelist Billy Graham, on the dangers of the world's preoccupation with sex:

"I think the new generation coming along is far better acquainted with Jayne Mansfield's statistics than it is with the Second Commandment which orders that 'thou shalt not take unto thee any image.'"

Mental Patients to Run Own Wing in Hospital

In the Coppice Hospital of Nottingham, England, a remarkable new experiment is going to be tried out. A wing is being added to a hospital—a wing which will be run by the patients! Doctors and nurses will come in only on invitation. Doubtless, the only types of patients admitted will be those who are well-behaved and troubled only by some mental quirk which they get under control before they can safely take their place in the community again. Dr. Gideon Woddis says that the idea back of the project is to teach these mentally disturbed persons to live with their fellows.

Dr. Alvarez

I always beg my mentally disturbed patients to struggle to stay social. The hermit tends to become queer. I urge them, also, to feel responsible for someone else. That is the secret of Alcoholics Anonymous. Dr. Woodis is going to ask each patient in the new hospital to be responsible for another one. That will tend to keep him saner than he would otherwise be. Relatives and friends will be invited to come and join in the activities of the patients. They will have art studios and shops and clubs and a little theater.

Eye Banks

Many people ask me how they can arrange for leaving their eyes to an eye bank so that some blind persons may perhaps, later, be able to see. I was just reading in the Sight-Saving Review about the great interest the Lions Clubs have in this project. I was reading also of the Eye Bank for Sight Restoration" in New York City. Another public group is The National Society for the Prevention of Blindness, 1790 Broadway, New York 19. According to a recent report by W. H. Havener, G. T. Stine and L. L. Weiss, persons who donate their eyes should supply with them a note as to their blood-group. Studies show now that if the blood-grouping of the donor and donee are different, the graft is likely, after a time, to get cloudy.

Dr. Alvarez' booklet on allergy may be obtained by sending 25 cents and a large, stamped, self-addressed envelope with your request to Dr. Walter C. Alvarez, Dept. MMT, The Register and Tribune Syndicate, Box 957, Des Moines 4, Iowa.

Bridegroom Faints After Ceremonies

Trieste, Italy – (UPI) – Bridegroom Luigi Burg, 18, fainted Monday after saying "I do." It took doctors 30 minutes to revive him so he could sign the marriage registry.

Thousands are amazed at way potent, new and improved Ostrex Tonic Tablets peps blood, cells, organs, nerves. Passengers Jolted On London Landing

London–(UPI)–A Boeing 707 jetliner bringing Ludwig Erhard, West German vice chancellor and economics minister, from New York bounced heavily on landing at London airport today, but was undamaged despite a fault in its hydraulic braking system.

London airport called a "full emergency" after the pilot signalled from over the English coast, that he was having trouble.

Fire engines screamed onto the tarmac to line the runway. But they were not needed.

The pilot used a supplementary braking system, and set the big jet down with only a bump.

Pan American World Airways officials and a West German welcoming committee watched the fire engines take their positions.

Gen. Douglas MacArthur was born on a military reservation in Little Rock, Ark. The site is now known as "MacArthur Park."
