

Arts Festival Opens June 14 On PSC Campus

Portland - Centennial of the Arts festival plans were completed and announced this week by the Oregon State System of Higher Education. The program will bring guest artists, literature, music, drama, dance and art to the Portland State campus June 14 to August 14.

Special features will include the Hollywood String Quartet with all Beethoven concerti, June 21 to 25; Charles Weidman from New York with his theater dance, July 10 and 11; Francis Chapin from Chicago with his paintings, July 27 to August 7; and Jacques Barzun from Columbia University with a lecture on "The Written Word - Antidote to Numbers," August 12.

Portland Extension center and Portland State college developed the festival as an official Oregon Centennial activity.

Second Annual Writers Conference, August 3 to 14, serves as the core of the Centennial of the Arts. Conference leaders are Karl Shapiro, poet and Pulitzer prize winner; Jessamine West, novelist; Evelyn Sibley Lampson, Oregon author; Charles Gaupp, playwright and Portland State drama director; and Dr. Barzun, Anthony Netboy, Portland Extension Center-Portland State college staff member, directs the conference.

The century-old comedy "Our American Cousin" will be revised as a musical for the July 24 and 25 Summer Session Theater production. "The Huck Finn Story," an original musical drama, will complete the Summer Session repertoire August 7 and 8.

The Hollywood Quartet will conduct student string quartets in workshop during their week in Portland. Mr. Wiedman will direct master dance classes June 29 to July 11. Tryouts for master class will be June 26 in the Portland State College auditorium. Class members will join him in the theater dance production July 10 and 11.

"An Approach to Painting Today" will be Mr. Chapin's lecture topic at the Portland Art museum August 5. He will also give a lecture-demonstration "On Watercolor" at Portland State college center July 31. A watercolor workshop will be open to "professionally-aiming" students July 27 to August 7. Mr. Chapin's selected works will be exhibited on July 12 for one month in the college center.

Good News for Pie Makers One gas range manufacturer has made it easy for the baker whose fruit pies boil over in the oven. A roll of aluminum foil fits into the back of the oven and the thin sheet of foil extends to the front. When a pie boils over all the cook has to do is to push out the soiled sheet and she has a clean, gleaming protective cover over the bottom of the oven.

Lifespan of Houseware Washington (UPI) - Refrigerators, ranges and tank-type vacuum cleaners average 15 years of service, reports the Agriculture Department. Upright vacuums average 18 years. Washing machines are not so long-lived, averaging only nine years of use when purchased new.

Early School Experiences Related for Club Program

Using the theme, "The Teacher Remembers," College Women's Club of the Rogue River Valley concluded the year's programs based on the Oregon Centennial, at the last-meeting at Girls' Community club. Opening the program, Mrs. Charles Adamson, music chairman, introduced Mrs. Milton Snow, who sang "Whither Thou Goest." This poem was written by Anna Marie Pittman in answer to a proposal of marriage made to her by the pioneer Methodist missionary, Jason Lee. Miss Pittman was one of a group of teachers who came around the Horn in 1837 to teach in a mission school in Salem, now Willamette university. Mrs. Lee's picture was in a recent issue of "Life" as one of the outstanding pioneer women of the West.

Continuing the program, Mrs. Una B. Inch acted as chairman of a group of former teachers, who related ex-

Industry Plans Campaign About Use of Plastics

By GAY PAULEY UPI Women's Editor New York (UPI)—The statistics on child fatalities tell the grim story: Plastic bags are not playthings.

The Society of the Plastics Industry, a trade group representing 1,101 companies, has begun an education program on proper use, and misuse, of plastic film coverings and bags.

"Just as infants and young children are not permitted to play with medicines, sharp objects and matches, they should not be exposed to ultra-thin plastic film," said William T. Cruse, executive vice president of the society. "Once the plastic bag or covering has served its original purpose, it should be destroyed."

The society, alarmed by the rash of child deaths from suffocation, has compiled a booklet on safe use of plastics. It will be distributed through the American Academy of Pediatrics, the American Academy of General Practice, the National Institute of Dry-cleaning, the National Safety Council, the Public Health Service and the U. S. Department of Health, Education and Welfare.

In addition, one major manufacturer, the Koridite corporation, launched its own campaign through the nation's local dry-cleaners, one of the users of the filmy covering. Its message to parents: Always keep plastic bags out of children's reach. Never treat plastic as a toy. Never use plastic as a mattress cover. Always destroy plastic bags or covers when they have served their purpose.

More Couples Marry Earlier

New York (UPI) - An item fitting for the June bridal season comes from the National Institute of Life Insurance. The chances of a couple's observing a golden wedding anniversary are better than ever.

Statistically, said the institute, today's young couple - if he is in his mid-20's and she a few years younger - has a three out of 10 chance for a gathering of the clan and the drinking of a toast in the year 2,009.

Americans also are marrying younger each year. The institute said that today's typical bride is about 20 years old - she was 22 in 1940 - and her bridegroom is 23 - he was 24 in 1940. The institute listed two reasons: Better economic conditions in the last 20 years have encouraged an earlier mating game; and many girls would rather help send hubby through school than wait to get married until he's educated.

Drip-dry Hint New York (UPI) - When laundering a drip-dry jacket on the honeymoon, stuff the sleeves with cotton hand towels while it dries. The sleeves will hold their shape and will dry faster.

Gadgets Ease Toil In Garden

New York (UPI) - Lawn care is easy - once you learn how to relax and enjoy life while gardening robots do all the work.

This year's push-button warfare on gardening toil features a two-hour timer that turns the sprinklers on at watering time and switches them off again when the yard is properly soaked.

There are oscillating sprinklers that move to and fro while the lazy gardener watches. The ideal gadget for the truly indolent grass grower, however, is a set of plastic pipes with sprinklers built in at strategic spots across the lawn. These systems may be planted, just like flowers.

A gardening genius has invented something called the Swan Sprinkler-soaker, a plastic hose that lies flat wherever it is placed and is riddled with small holes that make it a portable irrigation system.

For those who count on rainfall to help water the garden, there is a plastic rain-measure that tells how much moisture has contributed.

All kinds of hose nozzles have been developed for the do-it-yourself-gardener who really doesn't want to do-it-himself. One nozzle creates a spray as fine as fog. Another soaks plant roots without dampening sidewalks. Two hoses can be connected to the same faucet with a Siamese hose connection.

There are attachments also that mix chemicals with water, enabling a gardener to water his plants and spray them with bug killers at the same time. Antrol hose-sprays come bottled with built-in sprayer heads. All a gardener needs to do is screw the sprayer head on the hose and turn on the faucet, and there go insects, weeds and crabgrass.

The same company makes two sprayers that apply fertilizer and other chemicals the same way.

Or are you old-fashioned? Do you still like to sprinkle the gladioli and sweet peas with a watering can? If so, there is a modern, unbreakable, polyethylene model with a detachable, snap-on head. It comes in various pastel garden colors.

Swimming Class Announced at Y

A summer swimming class for mothers and children will start Wednesday, June 10, at the YMCA at 3 p.m.

The class will include instruction in swimming, water safety, and some life-saving instruction. There is no age limit on the children if they are accompanied by their mothers.

At tomorrow's first session instruction will be free to anyone interested, and artificial respiration for small children will be taught and demonstrated. Mothers are especially urged to attend this demonstration, since knowledge of artificial respiration may result in the saving of a life after an accident either in the home or outdoors.

Family Arrives For Visit Here

Mr. and Mrs. Kent Jones and their five children from Elkhart, Ind., have arrived in the valley to visit Mr. Jones parents, Mr. and Mrs. Sam Jones, 920 South Holly street.

While here they will attend the wedding of Miss Sally Carr, 1662 Scenic avenue, Central Point, to Mr. Jones' brother, Roger Jones. The wedding is set for June 20 at Medford First Methodist church.

Officers were installed by the retiring president, Mrs. Bert Stancliffe. They are president, Mrs. Wallace Haskins; vice-president, Mrs. Delno Sloan; secretary, Mrs. B. J. Holland; and treasurer, Miss Ruth Nye.

Miss Patricia Shafer, a June graduate of Medford high school, was introduced as the club's scholarship girl. She plans to attend the University of Oregon to study foreign languages, preparatory to teaching.

Refreshments were served from a table arranged by Mrs. Leland Mentzer. The center piece was made up of white Moon Glow roses interspersed with pale yellow iris and honeysuckle. Mrs. Bert Stancliffe and Mrs. Wallace Haskins poured. Hostesses were Mrs. E. R. Gilstrap and Mrs. C. O. Larson. The social chairman was Mrs. Roy Stanley, who was assisted by Mesdames L. A. Mentzer, John M. Black, James A. Johnston, and J. R. Smith.

LUCAS & HOWARD Bigelow Carpet Clinic THURSDAY & FRIDAY June 11th & 12th featuring Mr. Wes Pearson, carpet authority and Bigelow mill representative "What's New in Bigelow Carpets and How to Use Them!"

SUGAR 'N' SPICE 'N' EVERYTHING NICE—Little girls belong in a charming old-fashioned bedroom like this one. The cheerful cafe curtains are of Avondale Perma-Pressed white chambray. White is repeated in the hobnail cotton bedspread. The crisp and feminine dust ruffle and demi-canopy are chintz in little girl blue to match the all-cotton ball fringe trim of the curtains.

Rosier Future Forecast For Nation's Secretaries

By GAY PAULEY UPI Women's Editor New York (UPI)—Secretaries who already can dictate their own job terms because of their scarcity, face an even rosier future.

By the year 2,000, the girl Friday will rate a one to four-hour day, a three-day work week, a two-month vacation and punching the time clock will be classed as an antique custom.

About the only thing missing from what sounds like the perfect career will be the boss's lap to sit on. He either will dictate to his secretary by telephone, or else he will have been replaced by an electronic computer.

The life of the white collar girl some 40 years hence is outlined in the current issue of "Today's Secretary," a publication which caters to the 2.5 million girls who at present hold clerical jobs in offices.

Scarcity Foreseen The American Business Education Yearbook for 1959 estimated that by 1960, the number of typists, stenographers and secretaries, leaving out such office help as bookkeepers and file clerks, would be 1,750 million, and that their numbers must increase to meet demands of our expanding economy.

Well, if the "Today's Secretary" researchers are correct, plenty of us females will happily switch careers to help meet the demands. Addressing the secretary of the year 2,000, the publication said: "After giving your streamlined little two-passenger scooter car to the automatic elevator, you walk to your private office—all secretaries have private offices to shut out machine noise and vibration—and you take for granted the deep carpeting, the gay colors, the purified and humidified air. On your table—desks went out years ago—you find computer reports from their night's work.

"Maybe it's nine o'clock, ten, eleven or noon. Who cares? For your time of arrival is determined by what's to be done, not by the number of hours you put in. No Traffic Jam "You stay for an hour. Perhaps two, three or four. Seldom more. In a real emergency, you might put in six hours, but this would be rare. When you finish, you simply take off. And since all office hours are staggered, you will not run into any traffic rush.

"When you telephone, you dial by voice and if you want to, you can flip a switch so the person called can see you and vice versa. The old filing cabinets are gone. In one small compartment, you store

Bird Exhibit At Show

Central Point - One of the features of the coming flower show of Central Point Garden club will be an exhibit and talk by Carl Richardson, Trail. The show will be held June 11-12 at Crater High school gymnasium.

Mr. Richardson's hobby is the study of birds of the area and he will display his collection of mounted birds. He will also speak at 3 p.m. Thursday, June 11, and the public is invited to attend. The exhibit and talk are in keeping with the theme of the show, which is "Wings Over Oregon Gardens."

Entries for the show will be accepted between 7 and 9 p.m. June 10, and between 7 and 9:30 a.m. June 11. The general public, as well as garden club members, may enter any or all of the horticultural or artistic classes. The show will be open to the public from 2 to 9 p.m. June 11, and from 1 to 5 p.m. June 12. Tea will be served both days.

Group Installs New Officers

Mrs. Clarence England was installed president of the auxiliary to Fraternal Order of Eagles at a meeting held last week. Men of the lodge also installed officers at that time.

Mrs. Roy Heath is the retiring president of the auxiliary. Other new officers are Mrs. Stuart Forbes, vice-president; Mrs. Walter Daigle, chaplain; Mrs. Jack Webber, secretary; Mrs. Frank Knox, conductor; Mrs. Francis Rempert, inside guard; Mrs. Eber T. Weed, outside guard; Mrs. Floyd Lewis, Mrs. Yetta Flowers and Mrs. Premo Ciardi, trustees.

A social time followed the installation ceremonies. Past Presidents' club of the auxiliary will meet at the home of Mrs. Lewis, 710 Sherman street, Friday, June 12. Luncheon will be served at 1:30 p.m.

Keeping Canned Meats Columbus, O.—(UPI)—Most canned meats will keep at room temperature as long as they are stored unopened, says the Ohio Extension Service. It reports that canned meats, unless otherwise stated on the labels have been sterilized after sealing for preservation. Some items—hams, for instance—are not completely sterile and must be refrigerated.

Calendar Calendar notices and news for the society section of The Mail Tribune must be submitted in writing and deadline for the Sunday edition is 1 p.m. Friday. Deadline for the weekly calendar is 9 a.m. of the day of publication and for week day news is 5 p.m. the day before publication.

6:30 p.m. - American Legion auxiliary, home of Mrs. Earl B. Bigalow, 104 King street.

8 p.m. - Military Order of Lady Bugs, VFW hall, 42 North Front st.

8 p.m. - Nevita chapter, Order of Eastern Star, Masonic Temple, Central Point. Wednesday:

11 a.m. - Townsend club, Carpenters' hall, 123 1/2 West Main st.

12:30 p.m. - Mistletoe club, Girls Community club.

Marrin's MEDFORD

Four Generations Of Family Here

A family reunion is being held at the home of Mr. and Mrs. R. C. Wyatt, 235 North Ivy street. Here are Mrs. Wyatt's daughter, Mrs. Winifred Goodwin; Mrs. Goodwin's son-in-law and daughter, Mr. and Mrs. John Thomas, and their small daughter, Lauri Thomas, 2, making four generations present. All the visitors are from Calgary, Canada.

The group arrived Sunday and will leave tomorrow for Vancouver, B.C., where they will spend some time fishing. Mr. Thomas is with the Calgary telephone company.

Day Camp Dates Set

Camp Fire Girls day camp for the Medford area will begin June 23 at TouVelle State park. It is announced by the Camp Fire office. The Blue Bird session will be June 23 through 25, and the Camp Fire Girls June 30 through July 2. Registrations must be in the Camp Fire office, 215 Leverette building, Medford, by June 15, and the fee is 50¢ per day or \$1.50 per session. This includes insurance.

The girls will meet each day at 9:30 a.m. at the public library, and will be returned at 2:30 p.m. They should wear play clothes, and sturdy shoes for hiking. They are asked to bring a sack lunch the first day and milk will be provided.

Each girl must bring a permission slip signed by a parent.

Warm In A Flash New York (UPI) - To flame a dish of hot food, you needn't preheat alcoholic beverages. The heat of the food will warm the liquid enough, and a lighted kitchen match touched quickly to the surface of the alcohol will ignite it.

Marinade for Dieters New York (UPI) - Low-calorie French-style dressing makes a good marinade for broiled meats for dieters. Additional dressing may be heated for a sauce to go with the meat and vegetable.

CAR LIFE THE BEST CAR BUY IN THE U.S.A. After testing all cars, the editors of CAR LIFE "America's foremost motoring magazine," chose **RAMBLER** **HERE'S WHY:** "Rambler is a well-made, efficiently designed, comfortable car with outstanding structural strength and rigidity, smooth, quiet economical operation, outstanding maneuverability in traffic and parking, satisfactory roadability, ride and handling, competitive performance, good operating economy and very significantly low ownership costs—in short, it's our choice for overall best buy among U. S. cars."

COST "First of all, it has a lower initial price and on the basis of current figures will retain a greater percentage of its original cost than any other car anywhere near its price."

STYLING "The Rambler has developed in just three years into one of the most attractive cars on the road."

BODY DESIGN AND CONSTRUCTION "Most evident is the solidity of the unit-construction body. On the road there is never a trace of annoying body shake or vibration. Rambler's unit-construction body gives a solid, quiet, vibrationless feeling normally associated with the largest, heaviest and most expensive cars. A hidden plus... the entire unit, body and frame structure is dipped in a tank of rust-proofing chromate primer, a virtual guarantee against the rusting out of inaccessible panel surfaces."

INTERIOR "Rambler is an extremely comfortable car for all six passengers because the centers of both front and rear seats are not crumpled down close to the transmission housing and driver's foot tunnel."

HANDLING AND ROADABILITY "Rambler proves amazingly responsive and maneuverable at moderate speeds."

QUALITY "Rambler gets high marks in quality of manufacture."

Your Rambler dealer will be glad to give you a reprint of the complete article.
