

Expressways Not Solving Problems

Chicago—UPI—Expressways and turnpikes are not solving all of the nation's traffic problems and should be modified to make them safer, according to Commissioner Bernard R. Caldwell of the California highway patrol.

Caldwell wrote in Traffic Safety, the National Safety Council magazine, that unexpected increases in motor vehicle travel and automobile registrations have overloaded modern highways.

They have presented many problems that designers of so-called "safety roads" couldn't have anticipated, Caldwell said.

He said existing expressways need better access lanes, elimination of vision obstructions and continued improvement of signs. He also suggested turnouts for disabled vehicles, cross-over points which police could use to reverse traffic directions and to pursue motorists in opposing traffic lanes and improved surveillance points for police.
