

Formosa Strait Aggression Policy Told by Admiral

Aboard Carrier Midway at Sea—UPI—America's policy of retaliation against possible Chinese Communist aggression in the Formosa Strait has been spelled out by Adm. David Welsh.

The commander of Carrier Division 5 said any attack from the Chinese mainland upon a task force of the 7th Fleet while it is engaged in stopping any invasion of Quemoy or Formosa will bring a U.S. attack on the base which launched the attack.

Bomb Method Shown
Welsh made the statement following a demonstration of a new vertical loft method of delivering a nuclear bomb to its target by jet aircraft.

Welsh's division will take station on active patrol off the Chinese coast with the 7th Fleet late this summer. His largest carrier, the Midway, demonstrated mock nuclear bomb attacks for 27 California newsmen, guests of the Navy.

Also shown were Sidewinder air to air missiles which Adm. Welsh said resulted in virtual stalling of Chinese Communist air activities after Nationalist Chinese fighters were armed with them.

Bomb Tossed Straight Up
In a new method of delivery to insure pinpoint accuracy, a simulated nuclear bomb was tossed straight up miles in the air by a supersonic naval jet.

The jet flashed in and up directly over the target, releasing the bomb while pointed straight up. The jet pulled over and away to safety and was miles distant when the bomb hit a smoke target 1,000 yards ahead of the Midway.

The new loft bombing technique followed demonstration of the old "lob" delivery in which the bomb is released far distant from the impact point to arch its way to the target using the jet's forward impetus.

FLOODS HIT ITALY

Bolzano, Italy—UPI—Torrential rains swept this area Monday, triggering landslides, washing away bridges, and taking the lives of at least two Italian Alpine soldiers. The Brenner Pass highway between Italy and Austria was closed by landslides and residents of several mountain villages were forced to flee their homes until flooded streams returned to their banks.

Ltvia, flat country in north Europe between Estonia and Lithuania, was annexed by the Russians in 1940.
