

Russian Submarines Said Challenging

San Diego (UPI)—Russia's armada of conventional submarines, not an exchange of H-bombs, poses the greatest challenge to the Free World, a top admiral says.

Vice Adm. Ruthven E. Libby, 58, commander of the First Fleet, told United Press International Tuesday any future new war probably would be forced back into the arena of convention weapons.

"Chances of a nuclear exchange are about a million to one," said the veteran officer. Libby indicated he believed the ability of the United States and Russia to plunge the world into a nuclear holocaust would be cancelled out, much like the use of poison gas.

Which brought him to the point that the United States must be prepared to fight a convention war on the seas and needs more ships to do it.

They'll Do It Every Time

Virginia County Closes Schools To Avoid Integration

Farmville, Va.—(UPI)—The 21 public schools of rural Prince Edward county closed officially today in the most dramatic move taken by a southern locality to avoid the effects of an integration decree. The schools in effect closed definitely when the school term ended early in June but the closure became formal to day when the county began operating under its new budget.

Teachers Out of Work
The school closures and public education for more than 1,600 Negro students and 1,300 whites in the "southside" Virginia county, a defendant in the Supreme court's historic 1954 desegregation ruling. The action puts 70 white and 70 Negro teachers out of work.

Federal Judge Sterling Hutcheson of Richmond. The supervisors made their action final last Friday by adopting a budget for the fiscal year starting today with no money included for education. The same day, the Supreme court refused a petition by the county school board asking a delay of the integration order pending a full appeal. The supervisors, at odds
