Minerals and their production in Jackson county, "past, present and future" will be discussed by Dave Chase at the Northwestern Mining council meeting at 8 o'clock tonight in the Jackson county courthouse auditorium.

Chase, a graduate of Massachusetts Institute of Technology, has done considerable research on his subject. He is actively mining quicksilver in this area and is also a chemist. The council will formulate plans for the picnic to be held in August. Members also will discuss the International Gold Panning contest it will sponsor at the Jacksonville Gold Rush jubilee.

All gold panners are invited to participate in the contest.

**CLINK!** Burlington, Vt. - Two Burlington High school students admitted they didn't have a chance when they were caught trying to steal a case of soft drinks destined for the cooler of the city police department.

# Fire Destroys Empty Crates, Equipment at Ontario Pant

Ontario, Ore. - Fire believed started by children destroyed 50,000 empty onion crates, a conveyor shed and equipment here today at a loss estimated at \$50,000. The blaze was discovered about 12:35 a.m. today at the J. R. Simplot Co. plant on the east side of Ontario. It took 15 city firemen until well after daybreak to bring the blaze under control. Foreman Louis Pando made

the estimate of the loss. He said the crates alone were worth \$35,000, that a conveyor belt and shed were worth another \$35,500 to \$55,000 and that about \$10,000 worth of other equipment was either lost or badly damaged. Pando said he felt children were responsible for the fire. He said he has had considerable trouble with youngsters in recent weeks who have built tunnels in the stack of

crates. He said they had a regular playhouse in the center and that he had tried to keep them away from the stack - fearing one of them might get hurt. Pando said he believed the children either may have started the fire in the center of the huge pile or have carelessly thrown matches or lighted cigarettes into the area. Nobody was hurt, according to Fire Chief Bob Prah. Apparently none of the children was still in the area when the fire was discovered. Hugh columns of smoke spiraled skyward, lighted eerily by the flames. Firemen had to battle a 20 mile per hour wind from the west which whipped the flames a long. Fortunately, Prah said, the wind was blowing in the wrong direction.

# Pentagon Building Damaged by Flames

Washington - Fire that started in a highly secret underground area today drove hundreds of persons from their offices in the Pentagon-headquarters of all the U.S. armed forces and biggest office building in the world. At least 30 men were reported to have been overcome by smoke. About two hours after the fire started, the Defense Department said 15 guards and firemen had been hospitalized, and another 15 had been treated at the scene. Damage in Millions The fire raged out of control for about two hours in a small portion of the enormous building before it was "contained."

Five alarms brought hundreds of fire fighters from adjacent Virginia communities and the city of Washington. The fire broke out shortly before 8 a.m. (p.s.t.) in the basement of the gigantic, five-sided, five-story building which houses about 29,000 Defense Department employees, mostly civilians. Although the building is of masonry and concrete, and basically fireproof, the fire spread in false ceilings and partitions. Shortly after 10 a.m., a building official said he believed the fire was being "contained."

The fire started in the high-tech section which contains \$30 million worth of electronic machines - some of them apparently used in code work - leased to the Air Force by International Business Machines. The heat of the fire buckled the stone and concrete floor of the buildings main first-floor concourse, which contains numerous stores. The entire concourse area was evacuated.

# Pope John Warns On Destruction In Nuclear War

Vatican City - Pope John XXIII warned today that a nuclear war would bring "appalling destruction and ruin" to both victory and vanquished. The 77-year-old pontiff also warned leaders of both East and West that the world may be "slipping in complete blindness towards a new and frightful" nuclear war unless valiant efforts are made for unity and peace. The warnings came in the first encyclical of the new pontiff's reign. The 10,000-word document was presented as a continuation of the instruction work begun by the apostles who wrote the New Testament of the Holy Bible. In the main, the encyclical was a sweeping call to Roman Catholics to renew the fervor of their faith and to all Christians separated from the church of Rome to rejoin "the Father's House."

## Man Appointed to District Position

E. Ronald Rice, Medford, has been appointed to serve the remainder of this year as lieutenant-governor for Division 15A of the Pacific Northwest district of Kiwanis International. He replaces A. M. ## Wagons Negotiate Steep Mountain

Lava Hot Springs, Idaho - Drivers of the seven Oregon Centennial wagons started Wednesday they felt sure a 700-foot climb through Fish Creek Divide was the steepest and hardest mountain road thus far negotiated by the Conestogas. The wagons made it through the divide and camped Wednesday night at the rodeo grounds here. Operators of the local mineral baths threw open their doors to the Fifty-Niners and members refreshed the m-selves in the hot waters. A feature of the stay near Grace Tuesday was a portable soda fountain brought by Grace residents. Ice cream treats were dished up for the modern pioneers, and the chuck wagon larder was stocked with dairy products, fruit juice and soda pop by the townspeople. Today's trek takes the wagons to McCammon and then to the Idaho town of Inkom where camp will be set up.

# Stocks Set Record With Rails Stronger

New York - Stocks set a new high record again today with railroad issues stronger. Steel shares turned strong when the steel union announced moves to end a series of wildcat strikes that have been unsettling wage contract negotiations. These moves to keep the men on the job left the impression a steel strike may be avoided. U. S. Steel at its best price was up 2 1/2 points at a new top.

General Motors set a new top as did Ford, although the latter lost its gain. Goodyear had another spurt and lost part of it. Alcoa set new high and several other top-ranking favorites forged ahead. Baltimore & Ohio stood out in the rails by setting a new high. At their best the rails showed a rise of a point in their average.

## DOW-JONES AVERAGES

New York - Dow-Jones final stock averages: 30 industrials \$34.75, up 3.88; 20 railroads 168.92, up 0.52; 15 utilities 88.10, up 0.39, and 65 stocks 218.92, up 1.10. Sales today were about 3,610,000 shares compared with 3,150,000 shares Wednesday.

Today's prices on selected stocks: Allied Chemical 117 1/4, Alum. Co. Am. 105, American Can 45, American Motors 44 3/4, A & T 81 1/4, Anaconda Copper 63 3/4, Armo Steel 77, Bendix Aviation 77 3/4, Bethlehem Steel 58, Boeing Air 37 3/4.

## Change Taken From Central Market Here

A total of \$16.50 in change was taken from the cash register of Central Market, 437 South Central ave., Tuesday night or early Wednesday morning, according to Medford police. Police said the building's front door had been pried open. A fire box containing company records was moved but not taken from the store, according to the report. Homer Allen Sullivan, 1533 Whitman ave., the store owner, reported the crime.
