### French-Made Movie On Life in America Has Little Truth

Paris—(UPI)—It's the movie that has everything—and almost none of it true. It's definitely anti-American, but Americans who flock to it don't know whether to howl with rage or giggle at its absurdities.

The motorcycle mob of blank-faced young hoodlums rips into the American town. Black leather jackets zero in on the hapless bookstore owner.

Slap! His eyeglasses fly from his hands. Crash. Cowboy boots grind his groping fingers into the floor.

"Brutality in America" is the screaming message of the opening scene of the new French movie, "I'll Spit On Your Graves."

The scenes shift. In a cabin deep in Mississippi after a lynching, of course a poor white takes a pull on a bottle — imported Ballantine's scotch—what else?

Meanwhile, back on Main street tempers rise. The drug-store owner pulls his pistol from under the counter. Candles in empty coke bottles splutter in the night.

The hero, a light-skinned Negro passing for white, makes for the Canadian border with the white girl who loves him because he scowls.

Alas! Floodlights bare the fleeing pair and machine guns cut them down. Uncle Sam has the border watched.

Author Never Saw America  
Boris Vian, a Parisian Jacques-of-all-trades who wrote the script, was not limited in his description of America, since he has never been there. He died two weeks ago of a heart attack while watching this movie version of his original novel, "J'irai Cracher Sur Vos Tombes."

The movie is the talk of the sidewalk cafes and American tourists flock to it for three reasons—to get mad, to giggle or to gulp at the sex scenes which would never be shown in an American movie.

American small town girls wear their Parisian dresses only to shed them at the drop of a stare. In an underwater kissing scene the girl lacks the top of her bikini.

RIOTS INJURE 15  
Tel Aviv, Israel — (UPI) — Authorities reported that 13 policemen and two civilians were injured Thursday in riots which swept the Wadi Salih quarter of Haifa. An official announcement said the disturbance was touched off after residents of the quarter staged a protest-march denouncing police methods in breaking up a cafe brawl Wednesday night.

The asphalt lake of Trinidad in the West Indies produced 141,000 tons of natural asphalt in 1956.

HOW ABOUT THAT?  
Chicago — (UPI) — Ted Restke and Philip E. Ryan paced the maternity waiting room together at Mercy hospital. Restke got the news first, turned to Ryan, and said: "Twins! How do you like that?" Ryan dazedly received his news a few minutes later. "Triplets!" he told Restke. "How do you like that?"

**KEY to mite-free fruits**

**PEARS** should be protected from attack by mites. This job can now be turned over to an extra-safe, easy-to-use miticide called **KELTHANE**. Last year, many orchards had full-season control with only one application of **KELTHANE**. An ideal time to clean out a mite potential is in the first cover spray. To clean out the tops of trees where spray rigs may not give good coverage, a **KELTHANE** 3 percent dust is effective. You'll like the safety and long-residual action of **KELTHANE**... plus its ability to control all species of mites which attack pears with a minimum number of applications. **Best Room!**

JUST ONE OF 7 Big Bests Chevrolet OFFERS you over any other car in its field!

Take a tip from the experts... in their own words... and from on-the-record facts and figures: More than ever, Chevrolet gives you more than any other of the leading low-priced three! More room to relax in, for instance. A sampling of official dimensions reported to A.M.A. makes this clear. Chevy front seat hip room, for one thing, is up to 5.9 inches wider than comparable cars. And Chevy even offers more front seat head room than all but one of the high-priced cars! There is room to really relax in.

**Best Brakes**  
Not only bigger, but built with bonded linings for up to 66% longer life. Just to prove what's what, Chevy out-stopped both of the "other two" in a NASCAR-conducted test of repeated stops from highway speeds.

**Best Style**  
Chevrolet is the only car of the leading low-priced three that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "Chevrolet establishes a new high in daring styling."

**Best Engine**  
Every motor magazine has given Chevrolet's standard and Corvete V8's unstinted praise. AS SPORTS CARS ILLUSTRATED puts it: "... surely the most wonderfully responsive engine available today at any price."

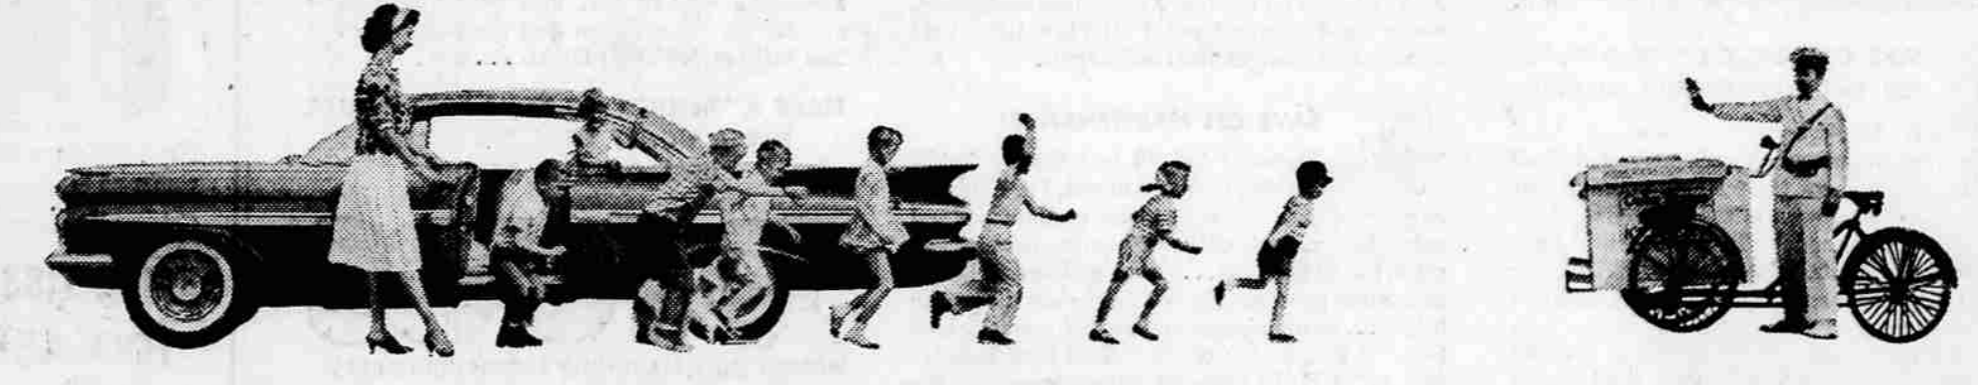

**Best Ride**  
MOTOR TREND magazine calls Chevy "... the smoothest, most quiet, softest riding car in its price class." You'll be able to tell this yourself, instantly, once you take the wheel.

**Best Economy**  
No doubt about this: two Chevrolet 6's won their class in the famous Mobilgas Economy Run, got the best mileage of any full-size car, 22.38 miles per gallon—with Powerglide.

**Best Trade-In**  
Check in any N.A.D.A. Guide Book. Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."
