

## State Farming Hits High Tempo

Salem—UPI—Oregon agriculture hit a high tempo in mid-July leading the way to a total employment figure of 700,000, the department of employment said Friday. This was an increase of 47,000 workers since the middle of May.

The strawberry harvest provided most of the new jobs—mainly in the Willamette valley. But new jobs also were reported around Ontario, Hood River and Milton-Freewater.

The Umatilla county green pea harvest requires about 600 seasonal workers. Preparation for coming harvests has spurred employment throughout the state's farm areas.

Some 5,000 workers were added to the work force in the canning and preserving industry and about 2,000 more in wood products concerns.

## Bob Crosby Signed For Show at Fair

Salem—UPI—Bob Crosby and his band have been signed for the Oregon State fair review, Manager Howard Maple announced yesterday.

The fair starts here Sept. 5 and runs to Sept. 12.

Crosby will present several acts and serve as master of ceremonies for the night review, Maple said.

New this year will be two night shows, the first at 8:30 p.m. and the second at 8:30. This will allow early patrons to see the night review and also attend the later horse show the same evening.

Maple said plans for county exhibits should be announced by Aug. 1.

Commercial flower exhibits should be listed with the fair management by the same date and reservations made by Aug. 22.

## Radinsky Blames Voucher Dispute

Portland—UPI—Jules Radinsky Friday blamed disagreement over handling of funds for his dismissal as head of the Alaska exhibit at the Oregon Centennial here.

He criticized the administration at Juneau, for failure to give him policy guidance.

Alaska Gov. William A. Egan removed Radinsky from the \$1,000 a month position. The chief executive told Radinsky he wanted closer liaison between the exhibit and the Alaska state department of administration.

Radinsky denied there was any animosity between himself and the governor.

He said his dispute, with the department of administration, was over vouchers for bills submitted as soon as money was expended.

BUY GUM  
New York—UPI—Americans chewed 250 million pounds of gum last year and paid \$306 million for it, according to Industrial and Engineering Chemistry, a trade publication. This amounts to more than 200 sticks for every man, woman and child in the country, or one stick of gum 1,500,000 miles long, the publication noted.

More than 440 million plastic bottles and tubes were manufactured in the U. S. in 1958, an increase of little more than eight per cent over 1957.
