Cuban President Accuses Reds of Plotting Treason

Havana—(UPI)—President Manuel Urrutia Monday night accused the Communists of plotting "treason" in Cuba. The charge set the stage for an internal power struggle between right and left in Fidel Castro's revolutionary government.

It added up to new trouble for the regime already beset by dissension in the armed forces and national police and threatened by "counter-revolutionary" conspiracies being uncovered throughout the country.

Denounce Newspaper

Urrutia, who has been seething quietly at Communist tactics in Cuba since the Castro revolution succeeded Jan. 1, denounced the Communist newspaper Hoy which had criticized him. He labeled it a "Soviet instrument in the cold war."

Urrutia said the Communists were doing "horrible damage to Cuba... trying to create a second front against the United States and in favor of Russia."

His words were by far the harshest anyone in the Castro regime has used against the Communists. Premier Castro himself has refused to condemn them, saying only that he welcomed anyone who worked for his revolution.

But Urrutia insisted, for the second time in two days, there were no differences between Castro and him. He said such reports were "counter-revolutionary."

Senators Called "Simpletons"

Castro reserved his harsh words for the U. S. senators who have been taking information from Maj. Pedro L. Diaz Lanz, former chief of the air force who fled to the United States after charging there were Communists in the Cuban government.

Castro called the senators "political simpletons... who seek to put a premium on treason."

Urrutia agreed with Castro that Diaz Lanz should be returned here for trial. He called the former air force chief a "despicable traitor." Diaz Lanz was one of Castro's strongest supporters during the revolution.

Wall Street Chatter

New York—(UPI)—The bull market still has a long way to go, according to a general consensus of the analysts in Wall Street.

Many of them are talking about the Dow-Jones industrial average reaching the 700 level. The average now is around 663.

However, brokers continue to caution investors to buy stocks on a selective basis, noting that not all groups nor individual issues in any group will participate in the rise.

Clarke, Dodge & Co. says it still is convinced the industrial average will reach the 750 level. Investors Research Co. says the bull market rise could carry the average to 720 by fall.

Prentice-Hall sees the 700 mark being achieved this year but warns that the real test for the bull market seems due in 1960. It says next year may mark an important reversal for stock prices.

The current demand for stocks can be explained by the numerous reassuring economic and political developments and in this environment it seems logical to expect prolongation of the recovery after a minor technical correction, according to Hornblower & Weeks.

INVITATION TO JAPAN

London—(UPI)—Visiting Japanese Prime Minister Nobusuke Kishi has invited British Prime Minister Harold Macmillan to visit Japan, the London Daily Mail reported today. "Details of the visit will be worked out later," the Mail said. Japanese delegation sources had no immediate comment on the report.

CUP OF TREASON

London—(UPI)—Alina Correa Ribeiro, 17, of Brazil, said Monday on completing two years at a finishing school here that she now likes tea much better than coffee. But she's not sure whether she'll brew any when she gets home. Her father is one of Brazil's leading coffee producers.

Manslaughter Charged in Deaths

Salem—(UPI)—A charge of manslaughter was filed in district court here Monday against James Perry Springstead, 26, driver of a car in which two Salem men were killed in an early morning crash into a boxcar here Sunday.

District Attorney Hattie Bratzel Kremen said the charge was based on police reports that Springstead, also of Salem, was speeding, driving recklessly and without lights when he ran into the boxcar about 1 a.m.

Killed were Robert Noble Felix and Thomas Norwest, both 24.

They were being pursued by a policeman after leaving a downtown tavern when the crash occurred.

Mrs. Kremen said Springstead, who is listed in "fair" condition from injuries suffered in the crash, is on probation of two and a half years on conviction of contributing to the delinquency of a minor.

STEAMER FARES UP

New York—(UPI)—In-season passenger fares between the United States, Canada and Europe will be increased next year, it was announced Monday. The Transatlantic Passenger Steamship conference, representing 26 steamship lines, said summer season minimum fares will be raised \$10 in first class and \$15 in cabin or tourist class.

ONE OF THE 7 BIG BESTS CHEVROLET GIVES YOU OVER ANY CAR IN ITS FIELD

Take it, not from us, but from official results of this year's Mobilgas Economy Run: Chevy's pennypinching 6 delivers the most miles per gallon in its field. For a pair of these Chevrolet sixes with Powerglide walked away with the first two places in their class, getting the best mpg figure—a whopping 22.38—of any full-size car. And here are more expert, impartial opinions and on-the-record facts backing us up on Chevy's other six bests:

BEST TRADE-IN

Check the figures in any N.A.D.A.* Guide Book. Chevrolet used car prices last year averaged up to \$128 higher than comparable models of the "other two."

BEST STYLE

It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

BEST BRAKES

In direct competitive tests of repeated stops from highway speeds, conducted by NASCAR†, Chevrolet outstayed both of the other leading low-priced cars—and why not? Chevy brakes are far larger, built with bonded linings, to help lengthen brake life by as much as 66%.

BEST ROOM

Official dimensions reported to A.M.A.‡ make this clear. For example, Chevy front seat hip room is up to 5.9 inches wider than comparable cars.

BEST ENGINE

Every motor magazine has given Chevrolet's standard and Corvette V8's unstinted praise. As SPORTS CARS ILLUSTRATED puts it: "Indeed this device is surely the most wonderfully responsive engine available today at any price."

BEST RIDE

MOTOR TREND magazine calls Chevy "... the smoothest, most quiet, softest riding car in its price class." You'll be able to tell this yourself, instantly. And your Chevrolet dealer can tell you about a long list of other advantages besides these 7 big ones!
