The third progress report meeting of the Jackson County Chamber of Commerce "Keep Pace With Tomorrow" program will be held tomorrow at 10 a.m. at the Jackson hotel.

Campaign officials said that they expect this to be the largest report to date since those engaged in campaign activities will by then have had a full 10 days in which to make their calls.

With slightly more than 50 per cent of the new money already subscribed, they said, it may well be that Monday's report will see the minimum goal achieved.

The fire burned an area of grass and brush 10 feet by 50 feet. Cause of the fire is unknown, firemen said.

A grass fire was reported also by the Central Point Rural Fire department. A 15-foot square area was burned at the Earl Pestka residence at 3160 Hanley rd. about noon Saturday.

## Welfare Gets July Allocation; Less Than June's Fund

Allocation for public assistance funds for Jackson county for July, 1959, was set at \$112,654, according to James Pullman, Jackson county welfare administrator. The allocation for June, 1959, was \$127,700, he added.

The 5 per cent cut for nursing home operators has been restored as was the cut for food under the general assistance to families program, Pullman said.

The state welfare commission gave the counties authority to transfer balances from programs not needing the entire allocation to programs having deficits during the month, Pullman noted.

"By July 14, the Jackson county commission had spent its entire allocation for old age assistance, medical. With approval, we will obtain money from some programs having balances which may tide us over," Pullman said. "The state commission emphasized that no county has the authority to spend more money than allocated to it for the month."

**Economic Situation**  
The economic situation in the county still remains good, Pullman noted. There are less odd jobs for day-laborers but fairly good opportunities for reliable workers. Jackson county still does not offer adequate employment for children under 18 years of age, but children who are willing to really look for work have managed to earn some summer money, Pullman said.

"A large number of our aid to dependent children mothers and children have found work. General assistance is paid to only a few cases and usually on a very temporary plan. No assistance is given single employable men," Pullman said. "Our biggest problem remains in medical care where it is so difficult to determine what care recommended by physicians will receive priority in authorizing payment."

A sixth youth involved in the incident, Jerry Arthur MacLeod, 18, of 1051 West 11th st., Medford, has been bound over to the grand jury and is being held in the Jackson county jail on \$2,500 bail.
