

Boxing Promoter Criticized for Not Cooperating

Los Angeles—(UPI)—Boxing promoter Jackie Leonard, victim of a mysterious fire in his home Sunday night, was criticized Monday by Police Chief William Parker as "uncooperative."

"Leonard has been a difficult person to work with in many respects," Parker said. He accused Leonard of being careless in following police instructions designed to protect him from possible revenge by the underworld for his testimony about gangland attempts to infiltrate California Boxing.

Sunday's fire which caused \$1,000 damage to Leonard's bedroom in his nearby Northridge home was probed by arson investigators to see if it was deliberately set.

Second Attempt
Leonard claimed it was the second arson attempt at his home in two weeks. He said he discovered a can of gasoline outside the bedroom window July 12.

Parker, in criticizing Leonard, said the Hollywood Legion matchmaker "revealed that we had installed electronic devices in his office and we had asked him not to. Also, he failed to record telephone conversations as we had asked him to, and for which we provided the equipment. The gasoline incident was not reported for three and a half days after the can was found at his home."

Leonard told reporters he was informed by police intelligence officers that the underworld has placed a \$500 on his head.

"That's not much money," said Leonard, "but I understand some hired killers will work for as little as \$250."

They'll Do It Every Time

Traffic Mishaps Claim 4 in State

State police investigated three minor traffic accidents Monday afternoon and another early today.

A two-car collision on Hillcrest-Phoenix rd. at 6 a.m. today involved cars driven by William Sharon Kusel, 24, of route 4, box 427B, and Ralph Leroy Cook, 49, of route 3, box 174.

Police said the two cars collided when Cook entered the road from a private drive. Minor damage was reported.

Minor damage also occurred in another collision at 4:30 p.m. Monday involving a car operated by Virgil Lee Wright, 50, route 2, box 186X, Central Point, and a boat trailer pulled by a car driven by James Henry Stever, 15, of 3435 Table Rock rd.

Officers said the Wright car struck the trailer in an attempt to pass as Stever made a left turn into a private driveway.

Two Men Killed in Logging Accidents

A complaint charging violation of basic rule was to be filed against Roberta Estelle Miller, 18, of 433 Ardmore st., following a collision involving the car she was driving and another driven by Mrs. Georgia Ella Davis, 59, of 535 Oakdale dr.

Curtis Harlow, 2, of 838 East Main st., a passenger in the Miller auto, received head cuts and bruises in the mishap, according to police.

Also investigated by officers was a collision at 1:50 p.m. Monday on Highway 66 in the Green Springs where cars operated by Richard Barrett Campbell, 59, Ashland, and Edwin Earl Bingham, 25, Klamath Falls, collided. Minor damage resulted.

Heart disease is responsible for about one out of two deaths in the United States. An estimated 16 million checks are written daily in the United States.

Four Accidents Investigated by State Police

United Press International Traffic mishaps have taken four lives in Oregon since Sunday, state police reported.

Killed were Othel Kermet Lowder, 42, Lake Grove; Mrs. Violet Irene Ross, 53, Tangent; and a Portland couple, Christian Pepple, 71, and his 70-year-old wife Jessie. Lowder was killed in a head-on collision on Highway 99-W early today about two miles south of Tigar. Injured in the crash were Mr. and Mrs. Donald Fivecoat, both about 30, Newberg.

A car driven by Mrs. Ross collided with a tanker truck on the Lebanon-Corvallis highway near Tangent Monday. The 53-year-old school teacher was killed outright. Driver of the truck, Rufus Edwin Riddleson, 41, of Albany suffered a broken neck and rib injuries.

Mr. and Mrs. Pepple were killed Sunday when their car crashed into a highway divider on U.S. Highway 99 north of Sutherlin.

Vetoed Bill Will Fight Inflation, Meany Says Today

Washington—(UPI)—AFL-CIO President George Meany said today the vetoed Democratic housing bill would fight inflation rather than fan it as President Eisenhower charged.

"Inflated prices are the result of scarcities and shortages," Meany told the Senate housing subcommittee. The measure would make possible the construction of 200,000 homes, he said, and thus would "help reduce inflationary prices rather than increase them."

"Experience as well as common sense indicate that housing prices decline when the housing volume expands," Meany said. He urged Congress to override the veto.

If Congress did not approve a housing bill this year, he said, "the dilatory actions of a reactionary coalition in the Congress and the indefensible veto by the President of the moderate, constructive bill" would be responsible.

Eisenhower rejected the big Democratic bill as "inflationary" and "extravagant." The subcommittee is holding hearings before deciding whether to try to overturn the veto or to draft a less expensive substitute.

Mayors and other municipal officials last week urged Congress to override the veto. Some senators, including two Republicans, criticized the President's veto message as misleading.

In earlier letters to each senator and House members, Meany urged the lawmakers rally the two-thirds majority needed to upset the veto.

Police Kill Man In Highway Chase

Fort Worth, Tex.—(UPI)—Police raked a car with more than 100 bullets and killed one man today in a high-speed highway gun duel following a narcotics burglary at an Arlington, Tex., drug store.

About 20 Arlington and Fort Worth officers, speeding after two men and two women fleeing the burglary scene, pumped more than 100 shots at their getaway car before it smashed into a tree at Sycamore Park here after running two roadblocks.

The dead man was identified as Westley Bentley Jr., 36, an ex-convict from Dallas. He was shot in the head several times and died in a Fort Worth hospital.

Bentley's three companions weathered the hail of police gunfire. They were identified as Bentley's wife, Mrs. Lila Jo Bentley, 33; his brother, Carl M. Bentley, 29, Dallas, and Myrtice C. Smith, 27, Dallas, identified as Carl Bentley's girl friend.

The chase started at Arlington, about 14 miles east of Fort Worth, before dawn when Arlington Patrolman James Carmichael, 26, surprised the two men coming out of the pharmacy carrying narcotics.

Carmichael said he shouted at the men, but one dropped to the ground and fired two shots at him. Then they rushed to a car where two women were waiting and sped away.

An average pound of butter uses the fat from 20 pounds of milk. Cheese uses 10 pounds of milk.

First of the states to regulate the sale of securities was Rhode Island which passed the law in 1910.

Manager Joe Moore prepares to break ground for First National Bank's new drive-in island, with lots of assistance from Assistant Manager Chet Irish and John Holmer, Job Superintendent.

Right there, Joe!

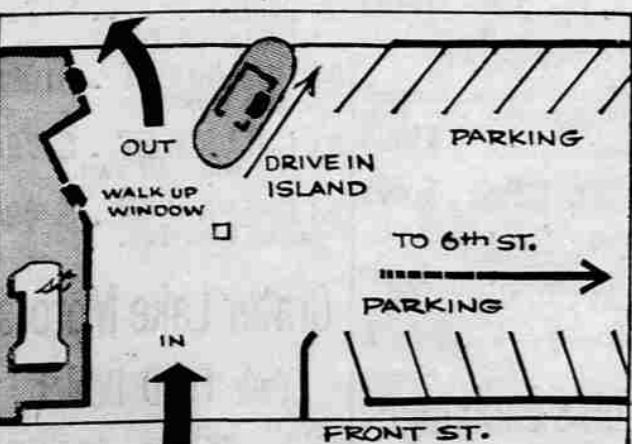

Bank From Your Car!

NEW DRIVE-IN ISLAND OFFERS ADDED BANKING CONVENIENCE!

About August 1, you will have even greater convenience at your Medford First National Bank of Oregon Branch. That's the target date for completion of a new drive-in island, which will make banking from your car easier than ever before.

The new structure, located between the bank and the parking lot, is reached from Front Street.

Its completion will make available two drive-in windows plus a handy walk-up window, for the speediest banking in Southern Oregon!
