

# Finch, Girl Friend Held Without Bail For Murder Trial

Los Angeles — (UPI) — Dr. R. Bernard Finch was in jail with his alleged murder-accomplice mistress today. He was held without bail, on the order of an old friend to face a murder trial in which the state believes "the death penalty is extremely likely."

Finch, 41, was ordered held for trial for the murder of his wife after a preliminary hearing presided over by Municipal Judge Albert H. Miller, 75, who said at the hearing's conclusion that he had known Finch and his father "for years and years" and considered them "admired friends."

"But the court cannot con-

sider friendship for litigants," Miller said. "The court cannot close its eyes to the facts."

Finch's admitted mistress, Carole Tregoff, 22, will have a preliminary hearing before the same judge next Thursday. She was arrested on murder charges after her testimony at Finch's hearing Wednesday.

**Murder Plot Charged**

The state charged the two carried a "murder kit," containing a sedative, hypodermic, knife, bullets and rope, to the home of Finch's estranged wife with intent to execute an elaborate murder plot which would make it appear Mrs. Finch had died in an auto accident.

Judge Miller said it appeared to him that the only thing that prevented the execution of that plot "was this young Swedish girl spoiled the whole thing."

The girl, Marie Ann Lidholm, 19, an exchange student working for Mrs. Finch as a maid, "heard Mrs. Finch in an anguished call," Miller said. "She ran out of the house and down to the garage and turned on the lights, and then things started to happen."

**Wife Shot to Death**

Miss Lidholm testified she found Finch standing over his wife with a gun. She said the doctor turned on her and banged her head against the wall and that she last saw him chasing Mrs. Finch across the lawn. Mrs. Finch was found shot to death on the lawn a few minutes later.

Finch claimed he had gone to the home — Miss Tregoff said she accompanied him — to discuss an out of court settlement of his wife's pending divorce suit.

Deputy District Attorney Fred Whicello asked the court to refuse bail, saying he believed the death penalty "extremely likely." He indicated he would not seek the death penalty against Miss Tregoff.

Sixty-three pulp and paper mills now operating in southern states employ 71,239 people whose payroll income totals approximately \$351,306,000 annually.

# Committees Move To Secure Grand Jury Findings

Washington — (UPI) — House and Senate committees moved today to secure copies of secret New York grand jury findings to prepare for possible joint public hearings into charges of television quiz show frauds.

The chairmen of the House and Senate commerce committees disclosed that they intend to look into allegations that favored contestants were fed questions and answers to enhance the "audience appeal" of several big money quiz shows. Most of them went off the air a year ago in the wake of such charges.

Chairman Warren C. Magnuson (D-Wash.), of the Senate Commerce committee said that if both his group and the House committee headed by Rep. Oren Harris (D-Ark.) decided public hearings are necessary "we might do it together."

Both Harris and Magnuson stressed they were not now making any accusations of fraud in the big money shows.

Harris said counsel to the Legislative Oversight subcommittee which he also heads, will apply to a New York court on Monday for permission to examine testimony received by the grand jury.

Teh jury's own findings were handed up in a presentment which was sealed by General Sessions Judge Mitchell D. Schweitzer on representations from attorneys for the defunct "\$64,000 Question" and other TV quiz programs. District Attorney Frank S. Hogan has moved for release of the presentment, and Schweitzer has said he will rule on the matter in September.

Hogan said the presentment contains evidence of widespread fraud but does not contain the names of individuals or of the quiz shows involved.

One machine tabulating 400 names a minute and running 40 hours a week would require about two years and eight months to count all the people in the United States today.

## Sandwich Freezing

You'll be ready to "pack up and go" on short notice if there are adequate supplies of sandwiches in the freezer. Here are 3 points to keep in mind when planning freezer sandwiches that satisfy.

Freezer "hardies" include sliced or ground meats, fish, chicken, peanut butter and cheese. Sliced or chopped olives, dill or sweet pickles may be added to any of these.

To prevent filling from soaking bread, spread all the bread slices generously to the edge with butter or margarine.

Do not freeze mayonnaise, salad dressing or crisp vegetables. The mayonnaise and dressing will separate and the vegetables lose crispness and change flavor. Add vegetables to thawed sandwiches just before serving.

**Refresher Course**

Since we're going to be making sandwiches the rest of our lives, why not check up on ways of achieving spectacular sandwich success every time. It's really quite simple.

Select sandwiches to suit occasions and conditions under which they are to be kept and served.

Serve hot sandwiches immediately following preparation.

To keep open-face or unwrapped sandwiches moist, cover with moisture-vapor proof material; refrigerate. Do not cover with a damp cloth.

Carefully made sandwiches may be stored 12 to 24 hours at temperatures under 50 degrees.

The term "sandwich buns" usually refers to two varieties; hamburger or frankfurter.

Arrange a sandwich-making area in a central spot convenient to all kitchen equipment.

Use a variety of sliced bread and buns. There are at least 25 varieties.

Spread a coating of soft butter, margarine, peanut butter or cheese spread to edges of bread slices to avoid picking-up of moisture from salad-type fillings. Use these coatings, too, with honey, jelly or preserves.

Melted butter or margarine are not advisable for spreading because they are absorbed by the bread.

Before starting to prepare sandwiches, make fillings and garnishes, refrigerating them if necessary.

To speed the making of more than six sandwiches, line up matching bread slices in pairs, on a work surface for easy cutting and wrapping.

Spread fillings evenly, using a flexible-bladed spatula, on alternate rows of bread.

Stack two or 3 sandwiches. Cut them all at once with a sharp knife.

Wrap sandwiches individually to prevent flavors or fillings from mingling.

Label each variety of sandwich. This obviously permits easy selection at serving time.

**Mexican Frankfurters**

If you're looking for a new frankfurter recipe, this one is practically a complete meal needing only a tossed green salad, assorted bread, fruit and beverage.

1 pound frankfurters  
1 No. 2 can cream style corn  
¼ cup finely chopped green pepper  
¼ cup finely chopped onion  
¼ cup chopped pimiento, optional  
1½ teaspoons worcestershire sauce or 1 teaspoon dry mustard  
1 cup medium white sauce  
½ teaspoon salt  
½ teaspoon pepper  
Slice frankfurters about ¼ inch thick. Mix with rest of

## House Adopts Report

Washington — (UPI) — The House Thursday adopted the conference report on military construction, authorizing \$588,000 for operational facilities at the Portland International Airport, Rep. Walter Norblad (R-Ore.) said.

Also included were \$61,000 for Army Reserve training facilities, and \$160,000 for a four-unit National Guard Armory at Salem.

They are first treated with a meat tenderizer. Sprinkle both sides of the chuck steak with the tenderizer and "fork" the tenderizer in the meat about every inch. Let the meat with the tenderizer stand at room temperature about an hour or in the refrigerator overnight.

Beef pot roast cuts are many. Braising steaks include bottom round, rump, sirloin steak tips, flank steaks, and shoulder steaks.

Pork cuts with lower prices for water-cooking, include fresh pork shoulder, shoulder butt, pork hocks and feet. Plenty of spareribs for braising, baking, barbecuing.

Enjoy good, nourishing, economical California cottage cheese more often. Specials on California's Monterey Jack attract also.

Fish and Shellfish. Treat the family to our west coast's many varieties of fish and shellfish. Good buys in fish sticks, flounder, halibut, rockfish, sablefish, salmon shrimp. Canned tuna is being specialized everywhere; a genuine bargain for stocking up.

Plentiful Vegetables. Beets, beans, cabbage, broccoli, cauliflower, carrots, corn at its very best, celery, cucumbers, eggplant, lettuce, romaine, onions, peppers, potatoes, hard and soft squash, tomatoes of excellent quality for the looking.

Fruit Displays. First of the Greensteins, the superb green apple that made apple pie famous. Fine for saucing, too. Avocados, peaches, nectarines, plums, Valencia oranges, lemons, limes. Cantaloupes, honeydews, watermelons piled high for eating every day.

# Negro Attorneys Ponder Decision Of Dallas Judge

Dallas, Tex. — (UPI) — Negro attorneys pondered ways today to overcome a federal judge's refusal to order immediate desegregation of Dallas public schools or set up any sort of integration timetable.

Federal Judge T. Whitfield Davidson, 82, advised the school board to "put your house in order for integration" and postponed a final ruling until "closer to the fall of 1960."

"I held we can't sufficiently forecast at this distance what the conditions will be, so I have postponed a decision regarding integration in 1960 until later," the judge explained.

**In Best Interest**

He said he felt his decision was to the "best interest of all" and remarked that his family had "owned plenty of slaves" and that the U.S. Supreme Court "has us (the South) over a barrel."

Thurgood Marshall, chief counsel for the National Association for the Advancement of Colored People (NAACP), conceded at Thursday's hearing that to begin desegregation this fall might be difficult. He sought to show there would be little administrative difficulty in starting a desegregation program in the fall of 1960.

The NAACP motion had asked for immediate integration.

Negro attorneys said they were not sure what the next step would be.

"We'll have to see the order before we can legally comment," W. J. Durham, Dallas NAACP attorney, said. "But we'll not wait until next spring to reopen this thing. This will take a long conference before we know just what legal action we can take next."

# Local Man Promoted To District Manager

Neil M. Arant, leading producer in the Gastineau unit of Equitable Life Assurance society, has been promoted to district manager of the company in eastern Oregon with headquarters in Pendleton. He will supervise Equitable operations in 11 counties.

Mrs. Arant, who is records officer at the Medford police department, and the couple's son and daughter plan to join Arant in Pendleton next week.

They are presently staying with her parents, Mr. and Mrs. Wesley Coleman, 1115 East 11th st.
