

**Listerine stops
bad breath
4 times better
than
tooth paste!**

Tooth paste is for your teeth—Listerine is for your breath. Germs in the mouth cause most bad breath, and you need an antiseptic to kill germs.

Always reach for Listerine after you brush your teeth. No tooth paste is antiseptic, so no tooth paste kills germs the way Listerine Antiseptic does... on contact, by millions.

Listerine stops bad breath four times better than toothpaste—nothing stops bad breath as effectively as the Listerine way.

Reach for Listerine

... your No. 1 protection
against bad breath

SPACE EXPLORER ...1975?

Not without a first-rate education! To assure the future of our children, and our nation, we must re-examine our standards.

Some of our schools are excellent right now. To raise the others to their level, ideas are needed — and money.

Flashlight Tag Evelyn Witter

This game is good to play outdoors on a gray day or just at twilight. One player is chosen to be Flash. He carries a flashlight. He runs ahead and starts the game by flashing the light. Then the other players have to chase him. He has to flash his light from time to time so the players can tell where he is. The first one who tags him gets the light and the game starts over again. The same person who is Flash three times is the winner.

3. When is a boat like snow?

Answers: 1. One drop kills. 2. It is the same upside down as rightside up. 3. When it's adrift.

PUNCH AND JUDY PUZZLE: FIND JUDY

A Tricky Trick

Give a friend nine toothpicks and ask him to make three and a half dozen of them without breaking or in any way changing their size or form. This seems impossible, but is easy if you know how.

Answer: You solve this by simply putting three toothpicks in one pile and the remaining six in another. You then have three and a half dozen.

Coin Trick

Maude E. Hallmer

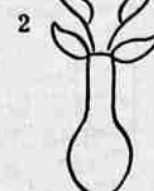

Secretly stick a small amount of wax on your thumb. Tell a friend that you can press a coin so firmly on his forehead that he won't be able to shake it off within two minutes. Say that you will use no adhesive to make it stick, and that he must not touch the coin with his hand. Press the coin firmly against his forehead with your waxed thumb. When you remove your thumb, the coin will stick to the wax and come away with it. He will not know this because the pressure on his forehead will have caused a sensation as though the coin were still there. After two minutes have elapsed, drop the coin on the floor and he will suppose that he has succeeded in shaking it off. Then invite him to try again. But, instead of dropping the coin after two minutes, tell him to put his hand to his forehead. The joke will be on him when he discovers there is no coin there.

Let's Draw a Deer

Ann Davidow

Draw a long-necked flower vase, One that's wider at the base.

Add "leaves" and "stems" and it is clear The ears and antlers of a deer Have taken form.

Then put in place His slender legs and deer-like face.

How delicate is every feature Of this timid, graceful creature!
