Three Fires In Ashland Saturday

Ashland—A blaze at Lithia Lumber company here Saturday afternoon that could have reached disastrous proportions was stopped in time, Ashland firemen reported.
Firemen also extinguished two other conflagrations Saturday, according to the report.
The flames in Lithia Lumber's log deck area were started by sparks from a waste burner which ignited sawdust and bark, firemen said. The fire was put out before it spread to nearby buildings.
A second fire occurred in Bud Roseberry's residence at 1210 Ashland Mine rd., it was reported. Flames caused damage in the basement while smoke caused "considerable" damage upstairs, according to the report. Firemen said Roseberry stated he had lit a cigarette and a sudden explosion resulted.
The third blaze, of undetermined origin, reportedly swept two vacant lots at 648 Park st., burning grass but causing no other damage.
Fire department officials reminded residents that burning permits must be obtained for controlled fires within the city, that no open fires are allowed in any case and that no burning can take place after dark.

Court Adjourns During August

Salem—Chief Justice William M. McAllister has announced that the Supreme Court has adjourned until after Labor day. Several of the justices, it was reported, will remain here during August, working on pending cases and will be available to handle any new matters needing immediate attention.
Justice McAllister reported that since the first of the year the court's backlog has been reduced by 42 cases. This has resulted in a reduction of about 20 per cent in the number of cases at issue awaiting oral argument.
The waiting period for cases on the docket compared to a year ago has been reduced by six months, due to services of two circuit court judges being appointed as justices pro tem for the past five months. The first seven months of this year is the first comparable period since 1951 that has seen a reduction in the number of cases pending in the Supreme Court instead of an increase, Justice McAllister said.
Two other circuit judges have been selected to serve during the remainder of the year to assist in clearing up the court's docket.
The U.S. has about 10 million skilled workers and specialized technicians.

So Tremendous it has to continue for a 2ND RECORD SMASHING WEEK!
