

## Alabama Man Is Sentenced Here

Lindel Worth Messer, 23, of Alabama, was sentenced to not more than 2 1/2 years in the Oregon state penitentiary Friday by Circuit Court Judge James Main. Messer was arrested July 13 on a charge of burglary not in a dwelling.

Messer and two others, James E. Quates, 23, and David S. Quates, 26, both from Alabama, were charged with the theft of tires and other property from the O. K. Rubber Welders, Ashland.

The Quates brothers are being held in county jail, awaiting a re-sentencing report.

Neal Patrick Chatterton, Ashland, was remanded to the sheriff Friday in circuit court, until the court decides what action to take. He is being held here on a charge of possession of a gambling device but he is on probation in California.

In other circuit court action Friday, Eugene Horace Thomson, 18, and Ronald William Kreamier, 19, Ft. Lewis, Wash., were placed on probation. They were charged with grand larceny in connection with the theft of a car here July 14.

District Attorney Thomas Reeder said that both boys had otherwise clear records and asked the court for leniency on their behalf. Judge Main suspended the imposition of a sentence for 18 months. Reeder said he thought they both had military charges pending against them as a result of their arrest here.

Japan maintains its lead with the world's largest commercial fishing fleet.

## Petition Seeks Change In Precinct Boundary

A petition, signed by 26 residents of West 10th, 11th and Laurel sts., has been submitted to County Clerk Marvin Madden.

The signers, all residents of Precinct 41, request that the precincts be rearranged so that they will be able to vote at the county courthouse, a distance of two blocks away, rather than at Medford High school.

**POOR WORK CONDITIONS**

Indianapolis, Ind.—(UPI)—Prisoners at the county jail refused to volunteer for out-of-jail work details Thursday because, they said, the man who takes them to and from the job "is a poor driver" and "jokes too much."

Total area of Brazil is greater than that of the continental United States by about 250,000 square miles.

## Forester Flown To Get Treatment

Missoula, Mont.—(UPI)—Regional forest service headquarters said here Saturday that Alva Blackerby, Nez Perce forest supervisor, was flown from Grangeville, Idaho, to Portland for treatment of burns he suffered last Tuesday in a plane crash.

Blackerby and two other men were burned and two smokejumpers were fatally injured in the crash of a forest service-chartered plane that crashed while landing at the remote Moos creek ranger station in the Nez Perce forest.

A forest service investigation team said the crash occurred when the plane failed to stop short enough on the runway and crashed into some trees.

## MAIL TRIBUNE, Medford, Or. Sunday, Aug. 9, 1959

## Too Many Babies Delivered by Driver

Denver—(UPI)—Harry Johnson, 39, has found it necessary to deliver 35 babies during the six years he has been working as a Denver ambulance driver. He says there's nothing to it.

But, after the birth of the Johnson's first child, Mrs. Johnson reported that "he was in the delivery room and I heard one of the doctors say, 'You'd better get Mr. Johnson out of here. I think he's going to faint.'"

**CONTRACT SIGNED**

Paris—(UPI)—Euratom, the six-national European atomic pool, Friday signed a three-year contract to help France finance a nine million dollar program of research into nuclear fusion.

## Court Records

**Centennial Queen Reported Aground**

Portland—(UPI)—The Centennial Queen was reported to have run aground on a sand bar just west of the Oregon grounds Saturday afternoon.

The Centennial Queen, which has been plying between a downtown berth in the Willamette river and the Centennial grounds, was making one of its last runs to the Exposition.

It was to cease operations today to the Exposition grounds because of low water. No one was reported hurt in the grounding.

**EXHIBIT PHOTO RIPPED**

Moscow—(UPI)—American Exhibition officials said Friday that two photographs in the exhibit's "Family of Man" display were torn down by a Nigerian visitor who immediately was taken into custody by Soviet police. The Nigerian, not otherwise identified, claimed the pictures were "unobjective" portrayals of the Negro race and ripped them from the wall after exhibition officials refused his demand to remove them.

Ask About Free Parking on Alabam's Lot

G-E all weather units are available in 10,000 B.T.U. capacity and are equal in heating capacity to about 3,000 watts of electric heat or as cooling units are capable of removing the amount of heat that 3,000 watts would generate.

The power consumed per unit of heat in reverse cycle operation makes for a very substantial savings in operation expense compared to resistance wire electric heating.

**PRICE:** Cooling machines of this capacity (10,000 B.T.U.) sell for \$300 approximately. The all weather machine **\$339.95** is only \$39.95 more.

So the heating factor is only \$40.00 more!

**HAPPY HAPCO SAYS...**

## GET AN AIR CONDITIONER FOR WINTER!

It's not a bad idea, ask your favorite high school physics student. exactly the same principles that make it possible for refrigerating equipment to move heat from inside your house to the outside air make it possible to move heat from the outside air into the house in the winter. (This takes place even if the outside air is comparatively cold through the natural miracle of refrigeration).

**All weather air conditioning has advantages other than cooling and heating.**

**MOISTURE REMOVAL:** 2 factors make for discomfort in summer. Heat is one and humidity is the other. The eastern newspapers have been publishing with the weather report a combination figure called the discomfort index. It is temperature and humidity readings reduced to one figure and has been very unpopular there with Chambers of Commerce. G-E all weather air conditioners reduce heat and remove moisture from the air. Either action increases comfort.

**AIR FILTRATION:** Dust particles gather in the washable filter of the all weather machine and dust so trapped won't settle on furniture. Highly effective glass filter together with G-E Air Tight Cabinet Construction reduces airborne pollen, dust and dirt. G-E filter helps provide relief for many allergy sufferers, keeps rooms cleaner, and is easily cleaned or replaced.

**AIR CONTROL:** Most homes have very little means of forcing air into or out of the house. A G-E all weather air conditioner provides this essential service. Smoke or undesirable odors can be exhausted simply by setting the controls for exhaust. The air from outside may be brought into the house from outside by setting the machine for ventilate.

**5 BIG ADVANTAGES**

- Removes heat (summer)
- Provides heat (winter)
- Removes dust (all year)
- Removes air moisture (summer)
- Provides air control (all year at will)

for EXTRA fun

## TAKE ALONG AN HFC VACATION LOAN

Arrange for your vacation money at America's best-known consumer loan company

Call or visit Household today. You'll find a bright, cheerful office... courteous, helpful people waiting to serve you. You'll do business in complete privacy with a friendly, capable, HFC manager. He's an "expert" in arranging loans for any good purpose. You'll choose your own repayment plan. You'll leave with a feeling of confidence, because you've done business with America's oldest, most respected consumer finance company.

Cash Year Out	MONTHLY PAYMENT PLANS		
	24 Payments	36 Payments	48 Payments
\$100	\$5.90	\$6.72	\$10.05
200	11.81	13.44	20.09
300	17.71	20.16	30.14
500	28.86	32.97	49.64
1000	53.89	62.21	95.64
1500	77.87	90.38	140.57

Household's charge is the monthly rate of 3% on that part of a balance not exceeding \$500, 2% on that part of a balance in excess of \$500 but not exceeding \$500, and 1% on any remainder.

Life insurance available on loans at low group rate
