

Sen. Morse Urges Congress To Pass Explosives Law

Washington—UPI—Sen. Wayne Morse (D-Ore.) Wednesday urged Congress today to pass legislation to extend federal regulation of interstate transport of explosives to non-common carriers in view of the recent "horrible disaster" at Roseburg, Ore.

Morse told the Senate that the recent explosion in Roseburg would not have occurred had legislation already before Congress been in effect.

He said Sen. Warren G. Magnuson (D-Wash.), chairman of the Senate Interstate and Foreign Commerce Committee where the bill is pending, agreed with him on the urgency of action.

Strong Appeal
Morse made a strong appeal lasting nearly an hour for passage of the bill which would make applicable to private and contract carriers of explosives and other combustibles the same rules that now apply only to such transport by common carriers.

The measure provides, for one thing, that trucks carrying explosives may not pass through a town or city. The Interstate Commerce Commission has urged passage of the legislation for some time, Morse said.

Salem—UPI—Public Utility Commissioner Jonel C. Hill said today he was asking the Interstate Commerce Commission to allow the PUC to assist in the investigation and hearing into the explosion and fire at Roseburg Aug. 7.

The ICC has set Sept. 1 as date for a hearing at Roseburg.

A commissioner and an examiner will be sent out from Washington, D.C., to preside over the proceeding which is expected to take several days.

Hill said PUC workers already had conducted preliminary investigations, but he thought additional information could be gathered from the governmental probe which would aid his office.

Bodies of Crash Victims Removed

Montseny, Spain—UPI—Salvage crews today recovered the bodies of 32 persons who died Wednesday night when an English charter plane crashed into this mountain village north of Barcelona.

The grim salvage operations were slowed by fog that blanketed the area for the second straight day.

The plane, a chartered DC3 of the British Transair Ltd. Company, crashed while en route from Barcelona to London with 29 students and three crew members aboard.

The students, most of them in their early 20s, boarded the plane Wednesday in a party-giving mood. One minute before the crash happened, the pilot had radioed "all well and on course."

The students were from Britain, West Germany, Spain, Iraq, Ireland and Malaya.

Cutter Races To Aid of Schooner

Honolulu—UPI—The Coast Guard cutter Planetree was en route Wednesday night to aid the 60-foot trans-Pacific racing schooner Diablo about 1,000 miles northwest of Oahu.

Among those aboard were G. Bradford Reed, Eugene, Ore., and Robert L. Dumond, Corvallis, Ore.

The yacht called for help Tuesday night after developing engine trouble. Skipper Frank S. Wade of Santa Ana, Calif., also reported the boat had a broken mast and split mainsail.

The Coast Guard said the vessel had flares, a small six-man boat and plenty of food and water. The Planetree was expected to tow the yacht to Honolulu.

Salem Man Killed In Cycle Accident

Harrisburg, Ore.—UPI—Ben Ray Cooper, 24, Salem, was killed Wednesday afternoon when his motorcycle struck a Southern Pacific freight engine here.

Cooper leaves a widow and two-month-old son.

Police said the train whistled at the downtown crossing but that Cooper apparently did not hear it.

The Salem man had been visiting his parents here where his father is a foreman for Roy L. Houck & Sons who are constructing sections of the Highway 99 freeway.
