

Communist Actions

Calcutta, India—UPI—Savage Chinese Communist efforts to wipe out Buddhism in Tibet shocked the Panchen Lama into turning against his Red masters, reports reaching Calcutta said today.

The reports said the Panchen, Communist sponsored rival to the self-exiled Dalai Lama, was crystallized into action by the massacre of Buddhist monks, and the pillaging of sacred Buddhist possessions.

Irk Panchen Lama

Reporters earlier this week said the Communists were holding the Panchen Lama under house arrest in the Tibetan capital of Lhasa and that his father had been accused of treason.

Reports reaching Calcutta said the Panchen's about-face had rekindled the spirit of rebellion against the Chinese Communists and revived hope of Indian aid against Peiping.

Rogue-type Hull Will Be Built In Fiberglass

Weiser, Idaho—The famous "Rogue River" white-water boat, known to rivermen everywhere, will be produced in fiberglass for the first time, at Weiser, Idaho.

Milan Ryder, president of Weiser Chamber of Commerce announced that Holland Milner will manufacture the Rogue hulls under license agreement with Glen Woodriddle, who has developed and built them at Grants Pass, Ore., for more than 30 years.

Milner's main production will be a 16½ foot boat, but larger designs will be available.

Main features of the Rogue River boat are a wide-angle V bottom, rising forward to a high stem; pronounced flare in the sides; and light weight—all to make the boat rise quickly on swells, and to give it firm lateral stability.

Mr. Woodriddle will continue his two manufacturing projects at Grants Pass. One is the production and sale of his plywood boats. The other is the Woodriddle outboard engine—lift, a frame that mounts on the transom, raises and lowers the motor by hydraulic control, adds speed and permits running in shoal water.

Torch Explosion Sets Fire To Warehouse

Leavenworth, Wash.—UPI—Fire ripped through the Leavenworth Fruit Co. warehouse Wednesday, causing an estimated \$250,000 damage.

The blaze, which was touched off when an acetylene torch exploded, burned out of control for nearly four hours. There was no fruit in the building.

Now See This

New York—UPI—Growing interest in "the visual" is reflected in increased use of film for annual reports. Many executives believe the film report, complete with sound track, represents the ultimate in making reports more informative, interesting and visually attractive.

The United States consumed 57½ billion gallons of gasoline during 1957.
