## Astronaut Describes 'Space Flight' in Simulated Orbit

Johnsville, Pa. — (UPI) — "A little dizzy but not bad" was the way one of America's seven astronauts described a four-hour "flight" into simulated orbit 150 miles from earth Tuesday.  
 Leroy G. Cooper, Carbondale, Colo., made the trip and returned in a specially built centrifuge designed to give the feeling of space flight. It was the first experiment of this type that newsmen were permitted to witness.  
 "Very Normal"  
 Cooper described the simulated flight and re-entry as "very normal—the same as we have been practicing the last few days."  
 The astronaut said he felt no pain and experienced the opposite of weightlessness. "I felt rather weighty," he said.  
 "Officials said Cooper had undergone a pressure equivalent to nine times the weight of his body while spinning around in a capsule on the end of a 50-foot arm driven by one of the world's largest motors.  
 The capsule can accelerate from a standing position to approximately 180 miles an hour in seven seconds and can be turned in any direction, reproducing the tumbling of earth satellites.  
 Cooper, dressed in a green coverall zipped to the neck, sat down in the capsule on a foam rubber pad designed to fit the contours of his body and was strapped in. His arms

LINDA EDNA MARTIN Leads to Killer Lacking

## Police Checking To Obtain Leads In Woman's Death

Los Angeles — (UPI) — Police today checked known sex criminals and both men and women friends of slain University of Southern California coed Linda Edna Martin for clues to her killer.  
 Police admitted they were without any substantial leads in the knife slaying of the 21-year-old USC music student from Rockville Center, N. Y., who had a fear of dying young.  
**Woman Possibility**  
 "We're not dismissing the possibility a woman was the killer," said Inspector Thomas Reddin.  
 "And we're not dismissing the possibility that it was a sex fiend, a friend, or a prowler, either."  
 Miss Martin, nude and bleeding to death from three stab wounds, was found Sunday night on stairs leading to the apartment of her bearded fiance, Glenn Robert Kinzie, 27-year-old USC graduate art student.  
 Kinzie has "passed" a lie detector test and been cleared of the slaying.  
**Previously Married**  
 Miss Martin was previously married. Her former husband, John Lewis Taylor, 24, told United Press International in Chicago Tuesday that Miss Martin had a premonition she "wouldn't live very long."  
 "I just kidded her," he said. "Just sloughed it off. You know how women are. She was an artist, a musician. Most creative people go through periods of depression — they don't have a constant emotional pitch."  
**Nixon To Attend Dam Dedication**  
 The Dalles — (UPI) — Vice President Richard Nixon has accepted an invitation to be the main speaker at dedication of The Dalles dam Oct. 10, it was announced today.  
 Paul Walden, chairman of the dam dedication committee, said he had received a telegram from Nixon confirming his appearance.  
 The dam originally was to have been dedicated Sept. 26.  
 The telegram said: "It is with great pleasure that I accept your cordial invitation to participate in The Dalles dam dedication ceremony on Saturday, Oct. 10. I shall be looking forward to being with you on that occasion."  
 Don Hughes, Nixon's aide, will work out details of the visit with local officials.
