## President Holds Key To Fate of Housing Measure

Some Republicans Predict Veto

Washington - (UPI) - The White House held the key today to the fate of the billion-dollar Democratic housing bill.

Republicans said it wouldn't surprise them if President Eisenhower vetoed it, just as he did a costlier measure eight weeks ago. Some Democrats predicted that if he did, the Democratic Congress would override his veto - for the first time since he took office.

### Special Session Talked

There was some talk about a special session of Congress this fall to deal with the problem.

The House late Thursday approved the "second try" bill 283-105 and sent it to the White House after defeating a series of attempts to revise the measure and make it more to Eisenhower's liking.

Democrats said they already had scaled it down to meet most of the objections Eisenhower listed in his veto of a \$1,375,400,000 bill July 7 and it was time for the President to "give," as one put it.

But Rep. Gordon L. McDonough (R-Calif.), leader of the GOP housing forces on the floor, said he felt the House-passed bill contained provisions to which the first veto message would apply.

### Grants Tamed Excessive

Immediate grants of \$650 million for city slum clearance, which McDonough termed "excessive." Republicans failed in a move to spread this over two years.

Authority for 37,000 new units of low-rent public housing. A Republican-Southern Democrat coalition tried to knock this out with an amendment but lost 180-134. Eisenhower contends no new public housing units are needed.

Creation of a new \$30 million loan program to help build college classrooms and laboratories. Two attempts to delete this were thwarted by House Democrats.

## Three Arrested for Chopping Copco Flume

Three youths were arrested yesterday in connection with the chopping of a hole in California Oregon Power company flume near Prospect, the county sheriff's office reported.

Deputies said that a 13-year-old boy was released to the custody of his parents and that two 14-year-olds were lodged in the county juvenile home.

Copco reported chopping of the hole and the resulting leak in the redwood flume Wednesday.

### WEATHER

FORECAST: Partly cloudy with mild temperatures through Saturday. Low tonight 56. High Saturday 84.

Highest Yesterday	Temp.
Lowest this Morning	52

### Our Skies Tonight

Sunset today	6:54 p.m.
Sunrise tomorrow	5:32 a.m.
Moonrise tomorrow	1:14 a.m.
New Moon	Sept. 2

### PROMINENT STARS

Antares, low in south	9:36 p.m.
Aldebaran, rises	11:25 p.m.
Procyon, low in east	3:42 a.m.
Sirius, rises	3:47 a.m.
Alhena, near the Moon.	

# Eisenhower Vetoes Bill For Public Works Money

**PATCHWORK**—It never fails. Medford city street crews painted yellow crosswalk stripes downtown a couple of months ago, and this week here come the state highway department boys to cover them up with asphalt patches. This time, though, the state got some of its own medicine: the patches put along Main st. yesterday cover some of the new yellow stripes that another state crew had painted just the day before.

## Proposed Ordinance On Trailer Parks Aired at Meeting

A proposed Medford ordinance setting standards for trailer parks was labeled as "tremendously discriminatory" by one park operator at the outset of a meeting with city officials here last night.

In subsequent discussions, it appeared park operators had misunderstood some provisions in the proposal. Other criticisms they offered are to be considered by city planners and councilmen in future meetings.

No date has been set for final council action on the measure.

Paul Selby, planning commission president, indicated today that some revisions, but probably not a major overhaul, would be considered in the meantime.

Selby last night explained the ordinance was intended to permit trailer parks in areas of the city more suitable than those to which they are limited by present zoning laws.

This privilege, Selby continued, would have to involve safeguards to insure that parks met correspondingly higher standards.

Under current zoning, trailer parks are relegated to

## Ike Objects To 67 New Starts Listed in Measure

Projects Not Included in Budget

Washington - (UPI) - The White House announced today that President Eisenhower has vetoed a \$1,206,784,549 public works appropriation bill because it included funds for 67 new projects he opposes at this time.

In a message to the House, the President said the measure "ignores the necessity for an orderly development of America's water resources within the nation's fiscal ability."

The 67 projects were not included in the President's budget. They would cost about \$100 million in the present 1960 fiscal year, but Eisenhower put the eventual estimate at more than \$800 million.

The White House made the veto message public today although the President signed it Tuesday before he left for Europe.

He said the 67 projects which he opposes now "will, at the proper time, make an important contribution to the economic development of the areas in which they are to be built and to the nation as a whole."

"But by any sound test of urgency," the President told the House, "these projects should not be started this year if we are to have a responsible federal fiscal policy."

He said the American people are opposed to overspending in any field, adding that overspending on water resource projects "is hurtful to the United States and to the proper development of these resources themselves."

The measure was less than 3 per cent above the amount the President requested for flood control, navigation and reclamation projects.

But Congress ignored his stand, voiced in the budget message last Jan. 19 and since reemphasized, that there should be a "breathing spell" in providing cash to launch new projects.

## Negotiations Collapse On Labor Reform Bill

Washington - (UPI) - House-Senate negotiations on the labor reform bill collapsed today and Senate Republicans decided to take the issue to the Senate floor immediately.

## "And So, F-fellow C-citizens, L-let Us F-face The F-future With C-courage, A-and..."

## Affiliation Group To Get City List

Medford would be the smallest city in the nation so far to undertake a "person to person" affiliation.

Portland has been the only other Oregon city to enter the program.

These points were made at a meeting this morning of Medford's town affiliation steering committee.

The committee agreed its next step should be to acquire lists of potential "sister cities" from the American Municipal Association and the U.S. Information Agency.

The AMA, a nationwide organization of cities, and the USIA, an organ of the state department, act in an advisory role in furthering the affiliation program.

Another suggestion this morning was to seek information from cities already participating, concerning their successes and mistakes. A

total of 59 cities reportedly have established affiliations with foreign counterparts to date.

**Not Yet Time**

The committee members present agreed it was not yet time to expand the group's composition. Although maximum participation will be sought eventually, the committee believes it can move more quickly and efficiently on its own in the information-gathering phase.

Those present at today's meeting included Robert Bacus, acting chairman, Bill Barker, Bill Singler and Mrs. Justin Smith.

The objective of town affiliation is to promote international understanding on a "person to person" basis through exchanges of visits, exhibits and information between an American and a foreign city of comparable size and economic interests.

## Khrushchev Trip Seen as Desire To 'Sell' People

Premier Interested In Only Mass Groups

Washington - (UPI) - Soviet Premier Nikita Khrushchev's forthcoming 12-day tour of the United States is shaping up as an all-out propaganda effort on the part of the energetic Russian leader to sell his "peace and friendship" theme to the American people.

This was the view expressed today by some of the officials engaged in working out with the Soviet Embassy the details of the Khrushchev visit. It begins in Washington Sept. 15 and takes him to six other American cities.

They said Soviet officials have shown particular interest in scheduling Khrushchev to appear before large crowds in mass population centers where radio and television connections are good.

**Ignores Small Towns**

The Soviet leader has shown no interest in visiting smaller towns to get a more representative cross-section view of American life.

President Eisenhower himself noted this at his latest news conference when he declared that the closest Khrushchev would come to the "thinking people" of rural America was when he makes a brief visit to Iowa State College at Ames.

Khrushchev's other stops outside Washington will be New York, San Francisco, Los Angeles, Des Moines and Pittsburgh.

**To Speak To Press Club**

He will address a press club luncheon Sept. 16, with his speech and subsequent questions and answers carried on nationwide radio and television.

When he returns to Washington at the end of his tour, he plans to meet the press again at the Soviet Embassy.

In addition, Soviet officials want him to talk to at least one big meeting in each of the other cities he visits.

## Miss Garner to Leave Agent's Post

Miss Marilou Garner, Jackson county 4-H club agent for home-economics, has resigned effective Sept. 1, according to C. B. Cordy, county extension office chairman.

Miss Garner joined the local staff in November 1957. She had spent previous two years as home economist in Warren county, Iowa, a position which she held on graduating from Iowa State college.

She has accepted a position as girls' group worker on the staff of the La Cassa de San Gabriel, a Presbyterian community center in San Gabriel, Calif. At the center Miss Garner will lead the recreation and camping activities and club groups for girls and women.

While here, Miss Garner was responsible for a 15 per cent increase in clothing and cooking 4-H projects. She also helped develop the home-economics demonstration week as a feature attractive to girls working with home-economics projects, Cordy said.

She played a major role in the 4-H covered wagon trek to Corvallis this summer.

## 4-H, FFA Banquet Tonight at Armory

Approximately 800 adults and 400 4-H club members and FFA members are expected to attend the 4-H, FFA fair awards dinner at 7 o'clock tonight in the new National Guard armory near the fair grounds, according to Glenn Klein, county 4-H club agent.

Some tickets for the banquet will be available at the door. The public is invited, he added. The style review and fair awards will be presented at 8 p.m. Those people who do not wish to attend the banquet may watch the style review and awards presentation without charge, Klein emphasized. Seats have been set up for this purpose.

Highlight of the awards presentation will be awarding the college scholarship sponsored by the Jackson County Young Farmers club. The banquet is sponsored jointly by the Young Farmers and the Jackson county fair board.

## Mexican Laborers To Help Relieve Picker Shortage

Two hundred Mexican laborers will be in the Medford area next week to relieve a critical fruit picker shortage, J. J. Patton, manager of the Oregon State Employment Service office here, said today.

A heavy pear drop, up to two or three boxes per tree, was reported by Clifford B. Cordy, county horticultural agent, this morning. A little better than half of the Bartlett crop has been picked so far, he said. Although the fruit is not yet coming in in normal quantities, packing houses still have to keep full crews, he added.

"Pear growers simply cannot get the fruit off the trees into the packing houses," Cordy said. "With up to 300 to 400 pears dropping from each tree the valley is losing an income of about \$4 per tree. This is figuring each pear is valued at one cent each while on the tree."

**Normal Harvest**

Growers report that normally the Bartlett crop would be almost all harvested during the first three weeks of the picking season. The winter pear varieties follow and require even more pickers when the harvest hits its peak. Growers are reporting some drop of D'Anjou and Comice.

Worsening the picker shortage is the peach harvest which is starting now and also requires pickers, Cordy said. The peach harvest is expected to be in full swing the first of next week. Both pears and peaches have bumper crops.

Cordy estimated that approximately 15 per cent of the Bartlett crop has fallen to the ground and expects a much heavier drop next week. The wind yesterday caused a heavy fruit drop west of Phoenix, it was reported.

Growers had been delaying the Bartlett harvest because of current small pear sizes. Now when they have to harvest their crop rapidly pickers are not available in sufficient numbers, even though it is comparatively early in the season, Cordy said.

Patton said the employment situation has improved so much this year that general labor for picking just is not available in the valley. Rogue River valley has the highest rate of employment this summer than it has ever had, he added.

The employment office has searched the Pacific Northwest looking for pickers and has failed to find enough, Patton said. The Mexican laborers will be apportioned to valley orchards by the Jackson County Fruit Growers League, Patton explained. More will be contracted for if needed.

## Zoning Ordinance Signed by Court

An interim zoning ordinance applying to the Camp Baker rd. area near Phoenix was signed yesterday afternoon by the county court.

A district attorney's opinion had declared the new zoning law legal and the matter had been pending before the county court after approval by the Jackson county planning commission. This is the only interim zoning enacted in the Phoenix area.

The new ordinance zones the Camp Baker rd. area into residential and agriculture. Residents of the area had requested the zoning when they learned a wrecking yard was planning to move into the area.

**Tacoma - (UPI) -** Weyerhaeuser Timber Company has announced it would be known as the Weyerhaeuser Company after Sept. 1.

## Frontier Posts Said Captured In Gunfights

Forces Ordered To Defend Areas

New Delhi, India - (UPI) - Communist Chinese troops have invaded India on both flanks of Tibet and captured frontier posts in gunfights with Indian defenders, Prime Minister Jawaharlal Nehru announced today.

He said that the India government had protested to Peiping and ordered Indian forces to defend the areas.

**Red China's New Campaign**

Red China's new campaign coincided with a new artillery offensive in the Formosa Strait and continued Communist pressure on Laos. It darkened the international outlook just before Soviet Premier Nikita Khrushchev's "peace" visit to America.

Reporting to a shocked Parliament, Nehru disclosed first details of the first major Sino-Indian clashes since overwhelming Red forces marched right up to the Indian border last March in their take-over of Tibet.

**China Claims Territory**

Peiping claims much Indian territory there but had never moved previously to capture it by force.

Nehru said one Communist contingent attacked the remote north East Frontier Agency, south Lhasa, Tibet, and defeated a frontier defence force.

He said a second Red force had moved into the Ladakh territory of Kashmir, due west of Tibet, captured an Indian reconnaissance force, and established a forward base on Indian territory.

**Islands Shelled**

At the same time new Red offensive moves were reported against Nationalist China.

Communist shore batteries resumed shelling the offshore islands of Nationalist China Thursday after the longest cease fire in the strait since last October.

The Nationalist Defense Ministry in Taipei reported Communist and Nationalist warships fought a running sea battle near the Quemoy Islands today.

## Sept. 7 End of Congress Dropped

Washington - (UPI) - Senate leaders of both parties gave up hope today that Congress can adjourn before Labor Day.

Republican chief Everett M. Dirksen of Illinois abandoned his earlier prediction that the House and Senate could close up shop by the week end of Sept. 5. He said he now sees adjournment coming "anytime from Sept. 12 until the first of October."

Acting Senate Democratic Leader Mike Mansfield of Montana also saw no chance of Congress finishing in the next week or 10 days. He declined to set any target date.

## Parking Meters Go On New Time Monday

Medford's parking meters effective Monday go into operation at 9 a.m. instead of 8 a.m., City Manager Robert A. Duff reminded residents and visitors today.

Duff explained that the change follows action by the city council Aug. 20. The meters continue to operate until 6 p.m., Duff added, and no rate changes have been made.

## Medford Couple Notifies Friend Here of Safety

Mrs. and Mrs. Norman Smedes, a retired couple who make Medford their headquarters and had been listed as missing in the recent earthquake near Yellowstone National park, called friends here this morning.

Mrs. Dorothene Simmons, 606 Valley View dr., Medford, who handles the Smedes' business here and received the call, said the Smedes travel much of the time, and notify her when a new mailing address is available.

**Last Mailing Address**

The couple's last mailing address was Fishing Bridge in Yellowstone, some 70 road miles from the area feeling the brunt of the earthquake. The Smedes called from West Thumb in Yellowstone park. Mrs. Simmons reported. They said their trailer had been shaken by the quake, but neither were injured.

Mrs. Simmons said she air mailed a letter to them the day of the earthquake. The Smedes, she said, were waiting for that letter before traveling south to Grand Teton National park, just south of Yellowstone park.

Since no word had been received from the couple prior to the telephone call this morning, Mrs. Simmons said their son, Capt. Norman Smedes, who is stationed with the Air Force at Panama City, Fla., decided to have their names placed on the missing list yesterday in hopes the Smedes would contact him or Mrs. Simmons.

## Court Studies Plan For County Rule

The Jackson county court is studying a plan to draw up a county charter, according to County Commissioner Chester Wendt. No definite plans have been made, he emphasized.

Forming the charter would be the first step toward establishing county home rule. A nine-man county charter commission would be formed, four members to be chosen by the county court and four by the Jackson county legislative delegation. A ninth would be elected by the new commission members.

The new commission would establish a charter or set of regulations for running the county government. When the charter is completed it would be presented for a vote of the people. Currently Jackson county and other Oregon counties are operating under state law.

**Balmoral, Scotland - (UPI) -** President Eisenhower, delayed slightly by another tumultuous greeting, arrived here today and received a royal welcome of skirling bagpipes and an unscheduled personal greeting by Queen Elizabeth and Princess Margaret.

**Huge London Send-Off**

The President flew from London to Aberdeen and then drove the 56 miles to Balmoral past tens of thousands of Scots who had streamed in from the highlands to bid him welcome. He had been given a huge send-off in London. Queen Elizabeth broke her

announced decision to make no further public appearances until after the birth of her third child in January or February and came to the gates of Balmoral Castle to give a personal welcome to the President.

**Three Firsts for Ike**

It was the first time a U.S. President ever had visited the British royal family's highland residence. It was the first time a President had ever visited Scotland. And his flight from London aboard a Royal Air Force jet Comet was the first flight by a U.S. President aboard a foreign plane.

Huge, cheering crowds broke through police cordons again today and surged into the roadway holding up the President. He arrived nearly 10 minutes behind schedule on the drive from Aberdeen's Dyce Airport where he was met by the Queen's husband, Prince Philip.

**Third Triumph**

Eisenhower's visit to Scotland was his third triumph in as many days. Wednesday he was greeted by a quarter of a million West Germans when he arrived in Bonn on his mission of peace. An estimated one million greeted him in London.

## Ike Receives Royal Welcome In Scotland; Met by Queen
