STOP OILY SKIN TO CHECK PIMPLES!

Don't pick, scratch, squeeze or merely "cover them up"

Doctors know that acne or pimples are caused by the germ called the *acne bacillus*. These germs invade overactive oil glands in the skin, cause blackheads and pus pockets; then your skin "breaks out."

What's needed is (1) to dry up the excessive oil that collects on skin; (2) to destroy acne germs on the skin, and (3) to stop itching and irritation so pimples can heal.

A doctor's formula, liquid Zemo has this effective 3-way action; also keeps skin looking cleaner!

String Fun

Evelyn Witter

This game is fun for "stay-in" days or to play at a party. Each player needs paper and pencil. Pass a ball of string around the group, and ask each player how much string he thinks is in it. When all the answers are collected, the ball is unwound and the length measured. The closest answer wins. Then the hostess cuts off a fairly short length of string, hands the ball to the next person, asking him to cut a piece the same length—just by remembering its size. Each person has a chance. Then the first piece is measured against all the others. The variety of lengths will be surprising, but the nearest one wins!

The Apple Pickers

Hazel Frazee

Any number can play this game. If there are only two playing, use the rows of baskets to keep score. Give each player a pencil. He closes his eyes and taps around the picture saying, "One, two, three, four... I'll pick one apple, maybe more."

The amount or direction in the space where the pencil rests indicates a score or a penalty. If the pencil stops on a blank space or a line, take another turn.

After each player has had ten turns, add the scores, and the highest one wins. Now let's start!
