

Catch a Car! Ida M. Pardue

"Catch a Car" is a speedy game if you are riding along a city street.

Each player needs a piece of paper and a pencil. Each writes the name of one car on his paper — Ford, Plymouth, Chevrolet, and so on.

Players take turns "catching" the cars coming from the other way. If a player has written Ford on his paper, and the first car to approach is a Ford, he scores one point. If the car is not the right one, he scores nothing, of course, and the next car to pass is the next player's turn. The first player to score five cars wins the game.
